

myEduPeak

EduPeak Student Manual

Sign up, take your tests, and read your reports on myEduPeak

For students in Classes 10–12 who use EduPeak — on their own, through their school or coaching institute, or invited by a parent. It explains how to create your account, sign in, join your institute's batch, take Basecamp, Chapter Tests and Mock Tests, and read your reports and worked solutions.

Edition 1 · October 2026
jeemain.edupeak.org · edupeak.org

What is in this manual

- 1 Welcome to EduPeak** — What EduPeak is, the two places you will use, and what you can do.
- 2 Getting started** — Create your account, sign in, reset a forgotten password, and the first screens you see.
- 3 Joining through an invitation** — Take your seat in your institute's batch, accept a parent's invitation, or arrive through a Guide's link.
- 4 Your dashboard and Start Here** — Your whole picture on one page, and what to do next.
- 5 My Assessments: choosing a test** — Your group, the three stages, the chapter list and the mock papers.
- 6 Taking a test** — The Start dialog, the test screen, sections and parts, submitting, and what happens if time runs out or you lose connection.
- 7 Your reports** — Basecamp's CAMP report, the Chapter Test and Mock Test report, worked solutions, PDF, and My Reports.
- 8 Sharing your progress** — Invite a parent, guardian or tuition teacher; see who follows you; your institute.
- 9 Language and phone** — Six languages, and using myEduPeak on a phone.
- 10 Safety, privacy and help** — Why you see your name on the questions, how your privacy is protected, and how to reach EduPeak.
- 11 Questions students ask** — Short answers to common questions.
- 12 Glossary** — EduPeak words explained.

1 Welcome to EduPeak

EduPeak helps you find out how ready you are in Class 11 and 12 science — and then shows you what to work on next, chapter by chapter. EduPeak does not teach; your school and coaching class do that. EduPeak **measures**, and it gives you an honest report after every test.

Two places, one account

You will use two websites. One account works on both — you sign up once.

Place	What it is for
edupeak.org	EduPeak's main website. Read about Basecamp, Chapter Tests and Mock Tests, see sample reports, create your account , sign in , reset your password, and open your profile. It is in six languages.
myEduPeak (jeemain.edupeak.org)	The app where the work happens: your dashboard, the tests themselves, and your reports. When you are signed in on edupeak.org, the myEduPeak → button at the top takes you here.

Your group: PCM or PCB

Everything on EduPeak is organised by your subject group:

- **PCM group** — Mathematics, Physics and Chemistry. This is the foundation for JEE Main, your state CET, CUET, the NDA, IISER and NATA.
- **PCB group** — Physics, Chemistry, Botany and Zoology. This is the foundation for NEET-UG and your state CET.

You can switch group at any time on **My Assessments** (see Chapter 5). Your reports and your CAMP profile stay with you when you switch. Some parts of the PCB group are still being prepared; My Assessments shows the status of each part, and a date when one has been announced.

The three steps

Step	What it is	When to take it
 Basecamp	One 100-minute check of your Class 9–10 basics in 6 timed sections. It ends in your CAMP profile .	First — once, before your two years of preparation begin. You can retake it later.
 Chapter Tests	A fresh test for every Class 11 and 12 chapter — up to 25 questions, 60 minutes.	Throughout Classes 11 and 12, as you finish each chapter.
 Mock Tests	Full papers on the real exam clock — each exam under its own name, with its own marking.	In your last months, to practise like exam day.

Free, and Prime

Creating an account is free. EduPeak shows you, in the app, exactly what is free:

- During the launch period, **everything is free for everyone, Prime tests too**. Your **Start Here** page shows the date this ends, and the access code is already filled in for you — just press Start.

- After that, every part of EduPeak keeps **free tests, each with the complete report. Prime** — EduPeak's yearly membership — opens everything else and lets you take a test again.
- Every test shows **Free** or **Part of Prime** before you start it, so there are never surprises. If your school or coaching gave you an **access code**, you type it in the Start dialog.

What you can do — and where this manual explains it

I want to...	Chapter
Create my account, sign in, or reset my password	2 · Getting started
Join my institute's batch from an invitation	3 · Joining through an invitation
Understand my dashboard and what to do next	4 · Your dashboard and Start Here
Pick a test — Basecamp, a chapter, a mock paper	5 · My Assessments
Take a test: timer, palette, marking for review, submitting	6 · Taking a test
Read my report and the worked solutions	7 · Your reports
Let a parent or tuition teacher follow my progress	8 · Sharing your progress
Use EduPeak in Hindi, Gujarati, Marathi, Tamil or Telugu, or on my phone	9 · Language and phone
Understand watermarks and my privacy, or ask EduPeak for help	10 · Safety, privacy and help

Note The pictures in this manual use made-up demo students — **Kavya Nair, Aarav Mehta** and **Diya Shah** — at a made-up institute, **Sunrise Science Academy, Pune**. Your own screens will show your name and your results.

2 Getting started

Create your account

You create your account on **edupeak.org**. There are three easy ways to reach the sign-up page:

- On the edupeak.org home page, press **Start with PCM Basecamp — free →**. It takes you to the Basecamp page; press **Take your Basecamp free →** there.
- At the top right of edupeak.org, press **New user? Register**.
- If you tried to start a test before signing in, EduPeak shows **You are one step from starting**. Press **Create free account →**. After you sign in, you land right back there with your test ready to start.

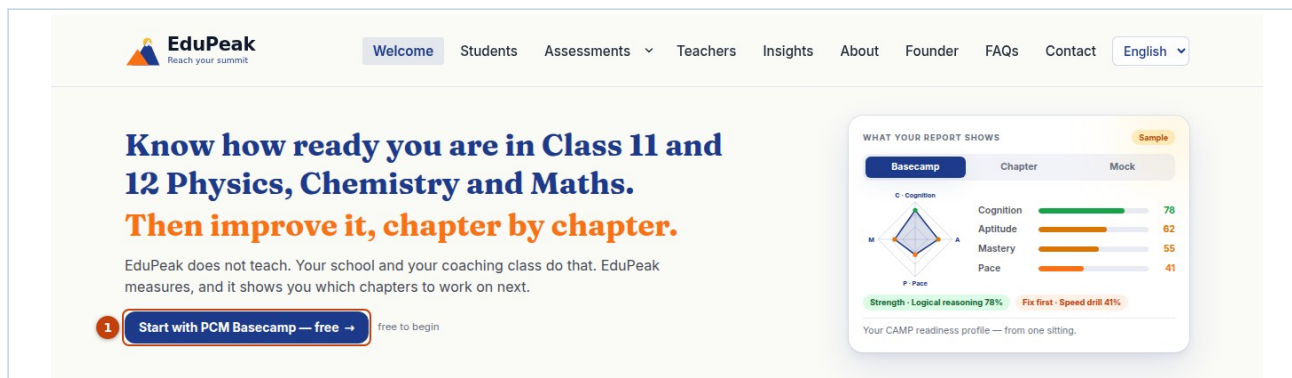

Figure 1. The edupeak.org home page. The Start with PCM Basecamp — free button (1) is the simplest way to begin.

Note If you arrived through an **invitation** from your institute, a parent, or an EduPeak Guide, start from the link you were sent instead — see Chapter 3. The invitation tells EduPeak who you are, so you are asked fewer questions.

Fill in the sign-up form

1. Under **How will you use EduPeak?**, choose **I'm a student** (1). A note appears: you will start at Basecamp — the one test to take first.
2. Type your **First name** and **Last name** (2).
3. Choose a **User ID** (3) — small letters, numbers and dots, like **aarav.sharma**. EduPeak checks it as you type and says ✓ **That User ID is free**. Choose it carefully: you can't change it yet.
4. Type your **Email** (4). Use an email you can open — it is how you get back in if you forget your password. EduPeak never shares it.
5. Under **One quick check**, type the 6-digit code shown on the screen into the box beside it (5). No waiting for an email.
6. Type a **Password** and type it again in **Confirm password** (6). It needs 8 or more characters, with an uppercase letter, a lowercase letter and a number.
7. Press **Create account** (7). You will see **Account ready — signing you in...** and you are in.

Create your account

One account for everything on EduPeak. Pick a User ID, type the code shown below, and you're in.

HOW WILL YOU USE EDUPEAK?

Pick one. You can add another later.

I'm a student

Take Basecamp, Chapter Tests and Mock Tests — and see exactly where you stand.
Class 10–12 · preparing for JEE Main

I'm following a student

See their reports exactly as they do — read-only. You can invite your student, or they can invite you.
Parent · Guardian · Private teacher

I teach students

Bring your batches onto one dashboard. Free to begin.
School · Coaching centre · Teaching on your own

You'll start at Basecamp — the one test to take first, so you know where you stand before your two years begin.

First name **Last name**

User ID

✓ That User ID is free.

This becomes your name on EduPeak — small letters, numbers and dots, like aarav.sharma. Choose it carefully: you can't change it yet.

Email

Use an email you can open — it's only for getting back in if you forget your password. We never share it.

One quick check

Type this code to confirm and create your account — no waiting for an email.

9 3 9 2 2 6

939226

Password

8+ characters with an uppercase letter, a lowercase letter, and a number.

Confirm password

Create account

By creating an account you agree to our [Terms](#) and [Privacy Policy](#).

ALREADY HAVE AN ACCOUNT?

Sign in instead

Figure 2. The Create your account page on edupeak.org, filled in for Kavya. The numbers match the steps above.

Tip The **Create account** button stays grey until everything is filled in correctly — if it will not press, look for an orange hint under one of the boxes (for example **Passwords don't match yet.**).

By creating an account you agree to EduPeak's **Terms** and **Privacy Policy** (links under the button). If the email is already registered, the page tells you and offers **Sign in** instead.

If you are asked for an emailed code

Most students never see this. If EduPeak ever asks you to **Activate your account**, it has emailed a 6-digit verification code to you (the sender is noreply@edupeak.org — check your Spam folder too). Type it in the **Verification code** box. Not there? Press **Email me a code** for a fresh one.

Sign in

1. Open **myEduPeak** (jeemain.edupeak.org) and press **Sign in** at the top right — or press **Returning user? Login** on edupeak.org.
2. On **Sign in to EduPeak**, type your **Email or User ID** — either works — and your **Password**.
3. Press **Sign in**. You are taken back to where you were going.

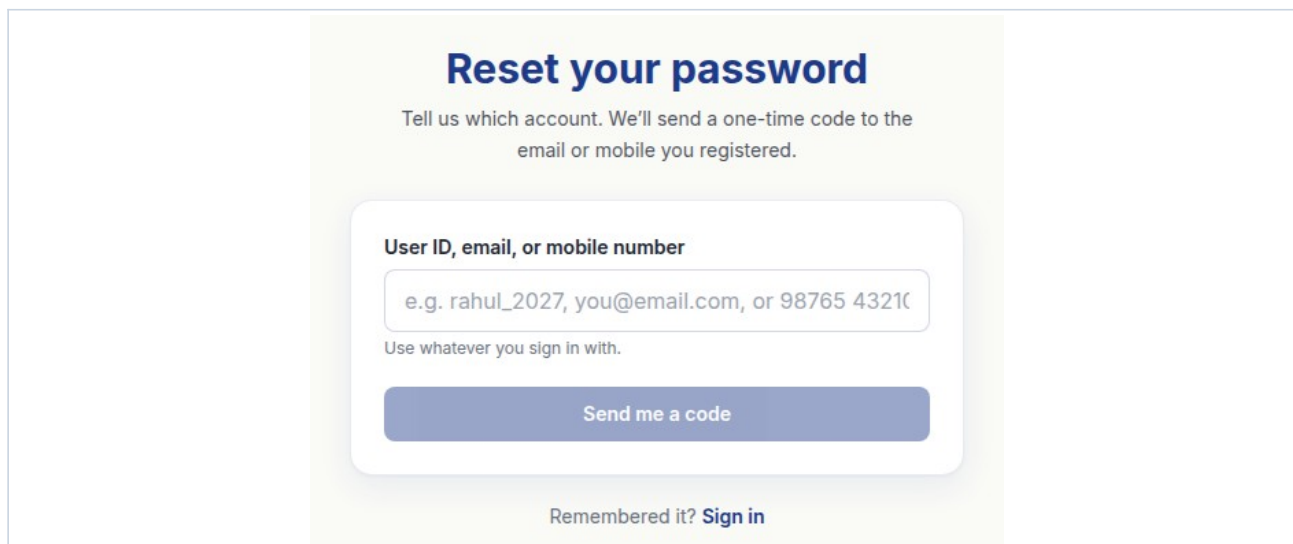

Figure 3. The Sign in to EduPeak page. *Forgot password?* is at the right, above the Password box.

Signing in once on either website signs you in to both. To sign out, open the menu with your name at the top right of myEduPeak and press **Sign out**.

Forgot your password?

1. On the sign-in page, press **Forgot password?**. The **Reset your password** page opens.
2. Type your **User ID, email, or mobile number** — whatever you sign in with — and press **Send me a code**.
3. If your account has both an email and a mobile number, EduPeak asks **Where should we send your code?** Choose **Email my code to ...** or **Text my code to**
4. Type the **6-digit code** you receive and press **Verify code**. The code is valid for 10 minutes; press **Send again** if it has expired.
5. Choose a **New password**, type it again in **Confirm new password**, and press **Save new password**.

6. You will see **Password changed**. Press **Go to sign in** and sign in with your new password.

The screenshot shows a 'Reset your password' screen. At the top, it says 'Reset your password' in a large blue font. Below that, it says 'Tell us which account. We'll send a one-time code to the email or mobile you registered.' In the center, there is a white rounded rectangle containing the text 'User ID, email, or mobile number' above a text input field. The input field has a placeholder text 'e.g. rahul_2027, you@email.com, or 98765 43210'. Below the input field, it says 'Use whatever you sign in with.' At the bottom of the white rectangle is a blue button labeled 'Send me a code'. Below the white rectangle, it says 'Remembered it? [Sign in](#)'.

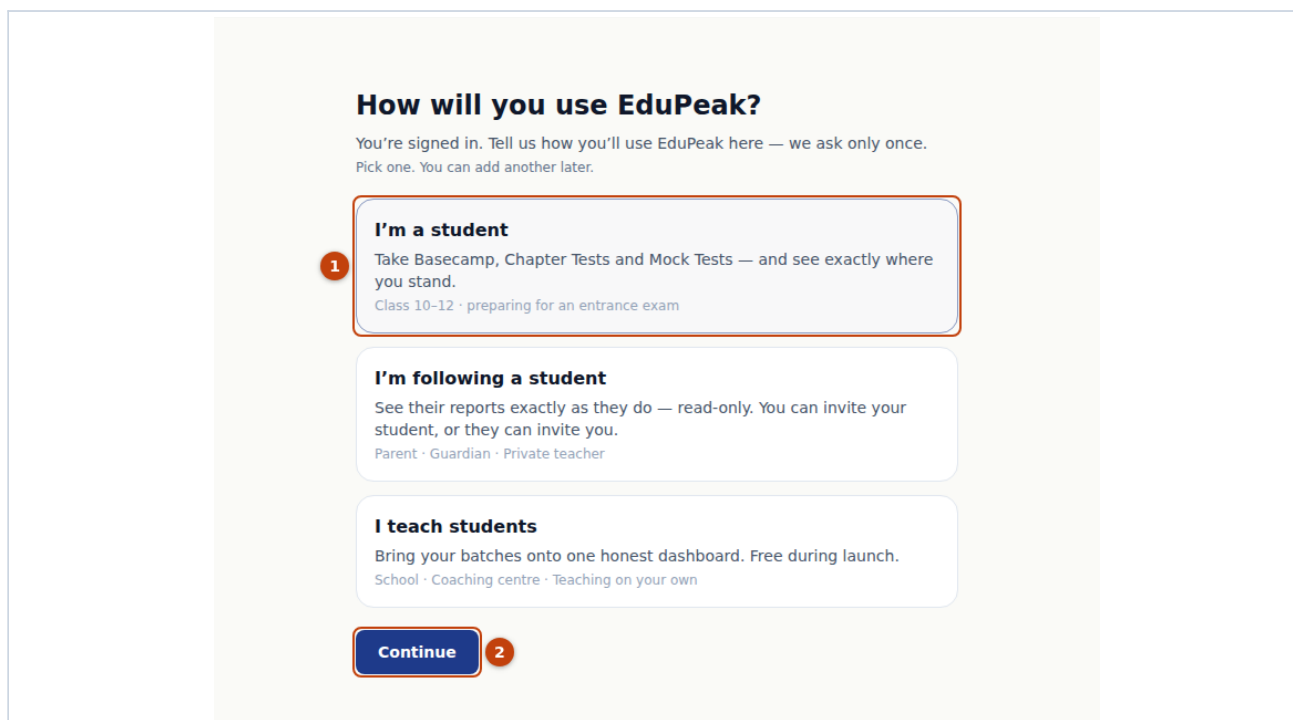

Figure 4. The first screen of Reset your password. The later screens (the code, the new password) are described in the steps — the code itself arrives by email or text message.

Your first screens in myEduPeak

“How will you use EduPeak?” — asked only once

If you signed up on edupeak.org and chose **I'm a student**, you go straight in. If your account has not been asked yet (for example, an older account), myEduPeak asks once:

1. Choose **I'm a student** (1).
2. Press **Continue** (2). Your dashboard opens.

The screenshot shows a 'How will you use EduPeak?' screen. At the top, it says 'How will you use EduPeak?' in a large blue font. Below that, it says 'You're signed in. Tell us how you'll use EduPeak here — we ask only once. Pick one. You can add another later.' There are three rounded rectangles below. The first one is highlighted with a red border and a red circle with the number 1 next to it. It is titled 'I'm a student' and contains the text 'Take Basecamp, Chapter Tests and Mock Tests — and see exactly where you stand.' and 'Class 10-12 · preparing for an entrance exam'. The second one is titled 'I'm following a student' and contains the text 'See their reports exactly as they do — read-only. You can invite your student, or they can invite you.' and 'Parent · Guardian · Private teacher'. The third one is titled 'I teach students' and contains the text 'Bring your batches onto one honest dashboard. Free during launch.' and 'School · Coaching centre · Teaching on your own'. At the bottom, there is a blue button labeled 'Continue' with a red circle with the number 2 next to it.

Figure 5. The one-time question in myEduPeak. Choose **I'm a student** and press **Continue**.

Your group

New students start in the **PCM group**. If you study Biology, switch to the **PCB group** on **My Assessments** under **Your group** (Chapter 5). The group you are in shows as a small chip at the top of every page, for example **PCM group**.

The top bar

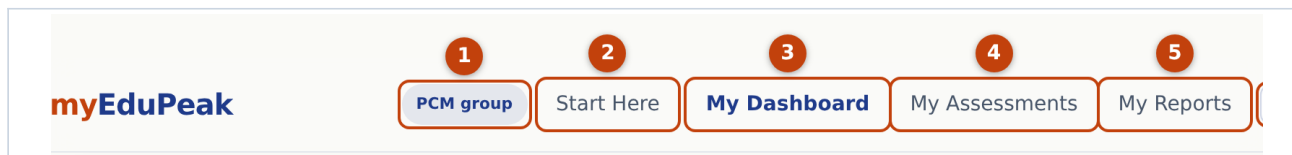

Figure 6. The left of the myEduPeak top bar on a laptop: your group and the four main pages (1–5).

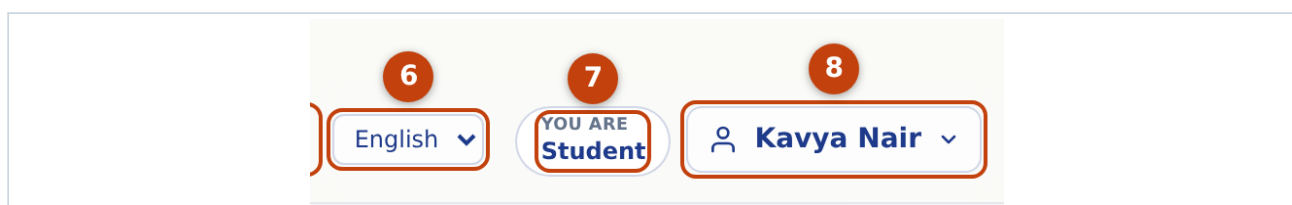

Figure 7. The right of the top bar: language (6), your role (7) and your name (8).

	What it does
1	Your group chip — the group you are working in (PCM or PCB).
2	Start Here — your map of myEduPeak, and the one best place to start.
3	My Dashboard — your whole standing on one page.
4	My Assessments — everything you can take, in order.
5	My Reports — every attempt, and how your scores have moved.
6	Language — English, हिन्दी, ગુજરાતી, मराठी, தமிழ், తెలుగు.
7	YOU ARE • Student — the role you are using. If you ever take on another role, your “hats” appear here.
8	Your name — opens a small menu: Signed in as (your email), My Profile (opens your profile on edupeak.org) and Sign out .

On a phone, the same links are inside the menu button (☰) at the top right — see Chapter 9.

3 Joining through an invitation

Sometimes someone else brings you to EduPeak: your institute, a parent, or an EduPeak Guide. You will receive a link — by email, and often also on WhatsApp. Every invitation opens the same kind of page, which tells you plainly **who invited you** and **who will be able to see your progress**. Nothing is shared until you agree.

Your institute's invitation (a seat in a batch)

When your institute adds you to a batch, EduPeak emails you an invitation. It looks like this:

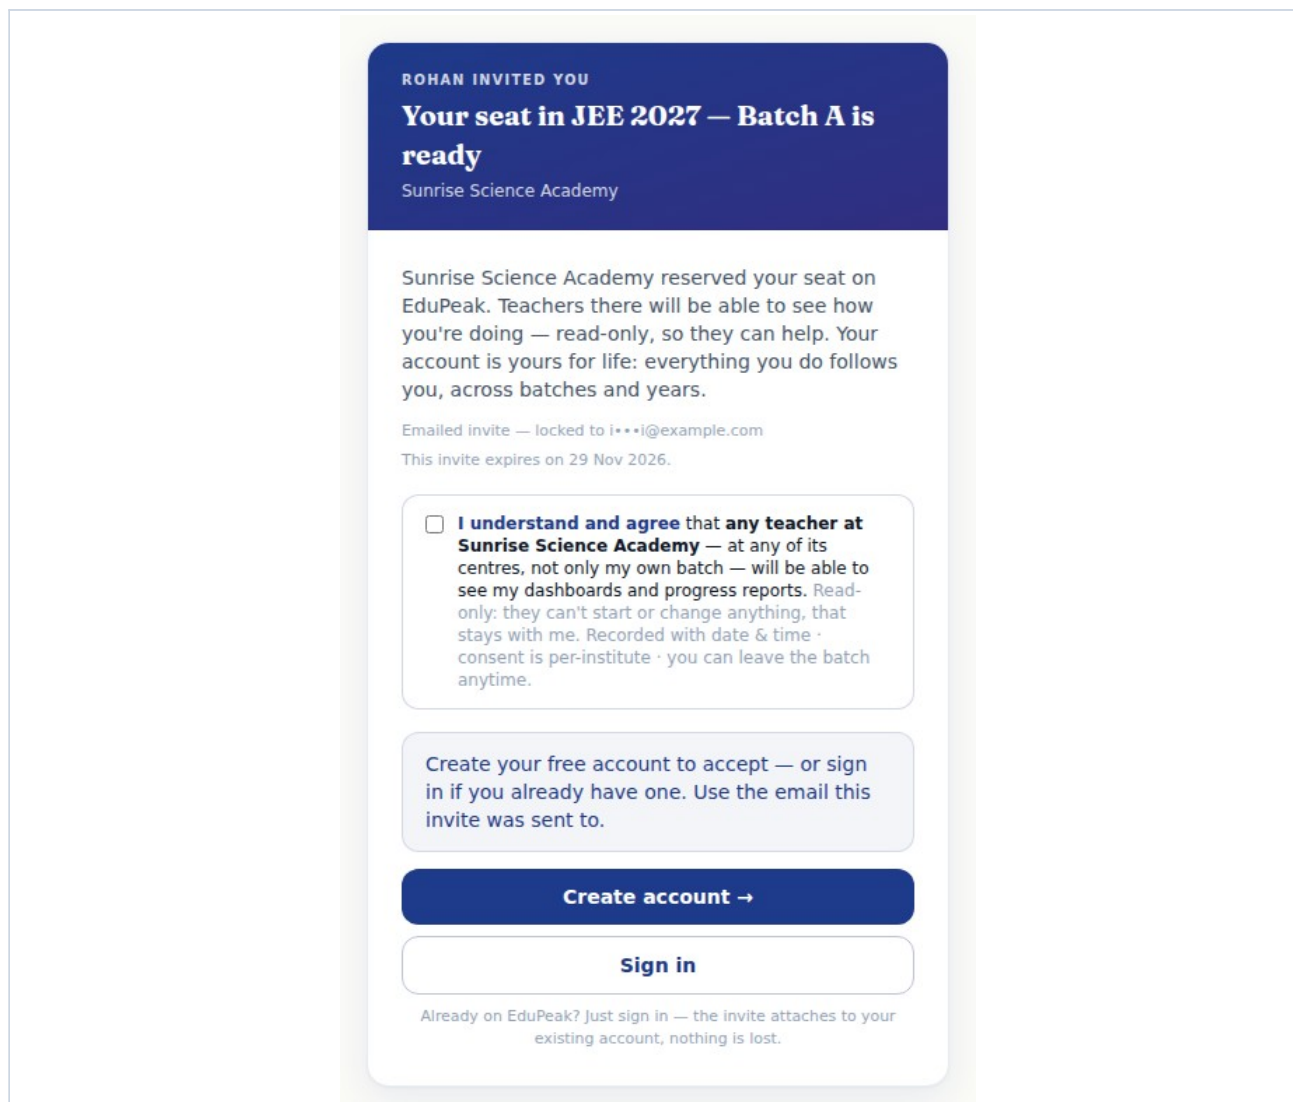

Figure 8. An institute invitation, opened before signing in. The heading names the batch (JEE 2027 — Batch A) and the institute (Sunrise Science Academy).

1. Open the link in the email. The page shows **Your seat in [batch name] is ready**, the institute's name, and who invited you.
2. Read the box under the heading. It says the invitation is **locked** to your email address (shown partly hidden, like i***i@example.com) and when it **expires**.
3. Tick **I understand and agree** — that any teacher at the institute, at any of its centres, will be able to see your dashboards and progress reports, **read-only**. They can't start or change anything; that stays with you.

4. If you are new to EduPeak, press **Create account** →. The sign-up page opens with a green note: **Your invitation says who you are — You're joining as a student, so we don't need to ask.** Fill in the form (Chapter 2) using **the same email the invitation was sent to.**
5. If you already have an EduPeak account, press **Sign in** instead. The invitation attaches to your existing account — nothing is lost.
6. Back on the invitation page, signed in, press **Take your seat** →. myEduPeak opens your dashboard.

Figure 9. Signing up from an invitation: the page already knows you are a student, and there is no on-screen code to type.

Important An emailed invitation works only for the email address it was sent to. If you are signed in with a different account, the page says **This invite isn't for this account.** Sign out and sign back in with that email — EduPeak never attaches an invitation silently.

What if the link does not work?

- **This invitation has already been used.** If that was you, you are all set. Press **Continue to my EduPeak** → (or **Sign in to continue**). Tip: bookmark jeemain.edupeak.org — that is your door from now on.
- **This invitation is expired** (or cancelled) — ask your institute for a fresh one.
- **Invitation not found** — the link may be incomplete. Open it again from the original message, or ask for a fresh invite. Every invitation works once and expires after 60 days.

After you join

Your account is yours for life: everything you do follows you, across batches and years. On your dashboard, **Share your journey** → **Manage** shows **Your institute can see you too**, with the institute and batch. This sharing stays with the institute, not with one teacher. To end it, ask your institute to remove you from the batch (Chapter 8).

A parent's or guardian's invitation

A parent, guardian or private teacher who already uses EduPeak can invite you. Their invitation says **Your practice starts here:**

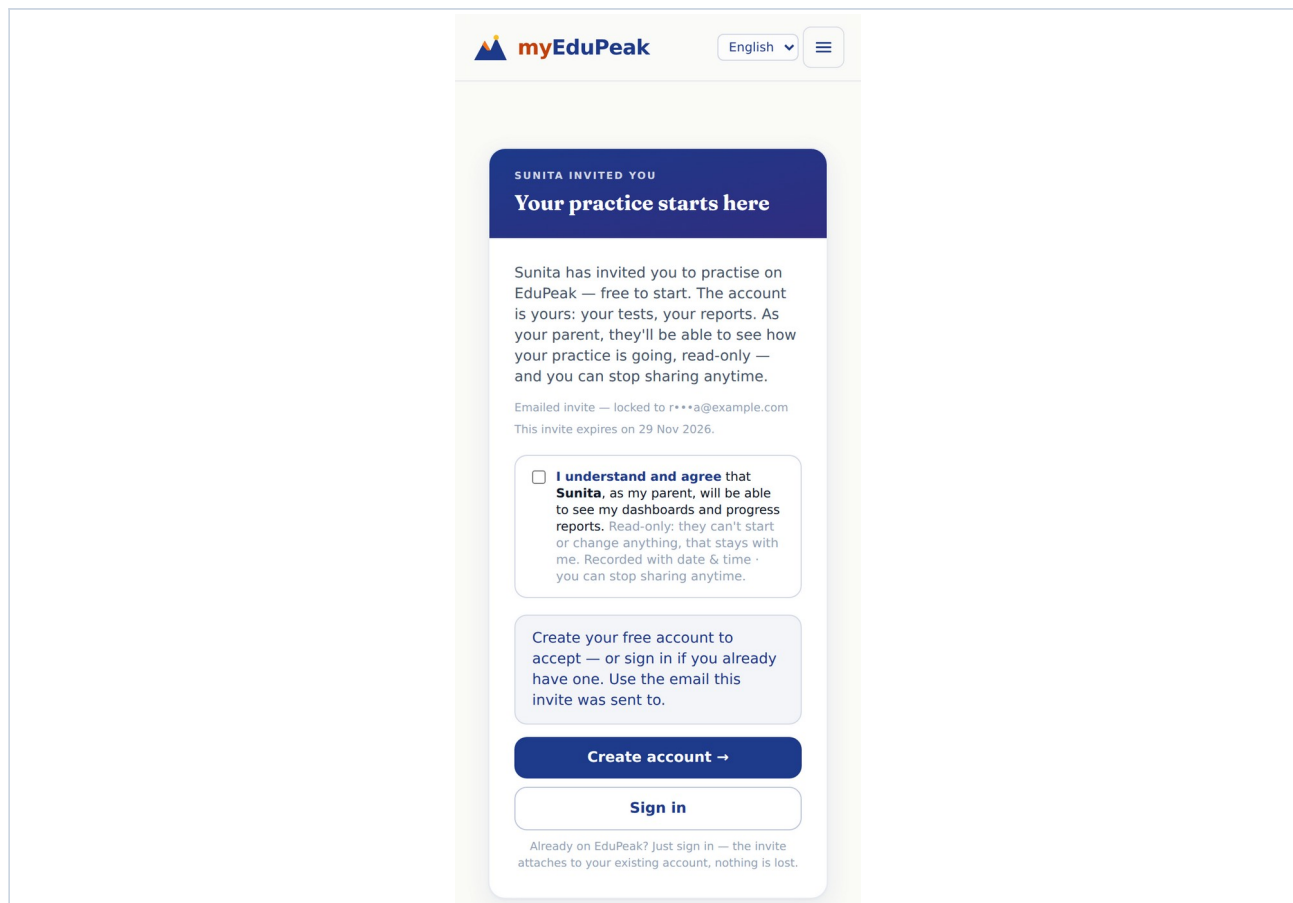

Figure 10. An invitation from a parent (Sunita), opened on a phone.

1. Read who invited you and in what role (for example, **as your parent**).
2. Tick **I understand and agree** that this person will be able to see your dashboards and progress reports — read-only. You can stop sharing anytime.
3. Press **Create account →** (new to EduPeak) or **Sign in** (already have an account), using the email the invite was sent to.
4. Press **Start practising →**. Your dashboard opens, and the person who invited you can now follow your progress.

The account is yours: your tests, your reports. You can remove a follower at any time (Chapter 8).

A Guide's link

EduPeak Guides are people from partner organisations who introduce EduPeak to schools and families. A Guide may share a personal link with you (it looks like jeemain.edupeak.org/j/...). The page says **[Guide's name] invited you to EduPeak** and **Through [organisation]**. Press **Create your account** to open the sign-up page.

The sign-up page then shows **You were introduced to EduPeak** — creating your account there credits your join to that Guide. **It changes nothing about what you see or pay**. Later, your profile on edupeak.org has a **Who introduced you** page, where you can see — and, for 10 days, correct — who is credited.

Note If a Guide's link is no longer in use, the page says **This link is no longer active**. You can still sign up directly on edupeak.org.

4 Your dashboard and Start Here

Start Here — your map

Start Here is your map of myEduPeak — open it from the top bar at any time (it is also the front page of jeemain.edupeak.org). It greets you by name and lists, in three columns, **What you can do here**, **Where things live**, and **Start now**. It also shows the free-period note and the access key that is filled in for everyone until the date shown. The big button **Take Basecamp first** → takes you straight to Basecamp.

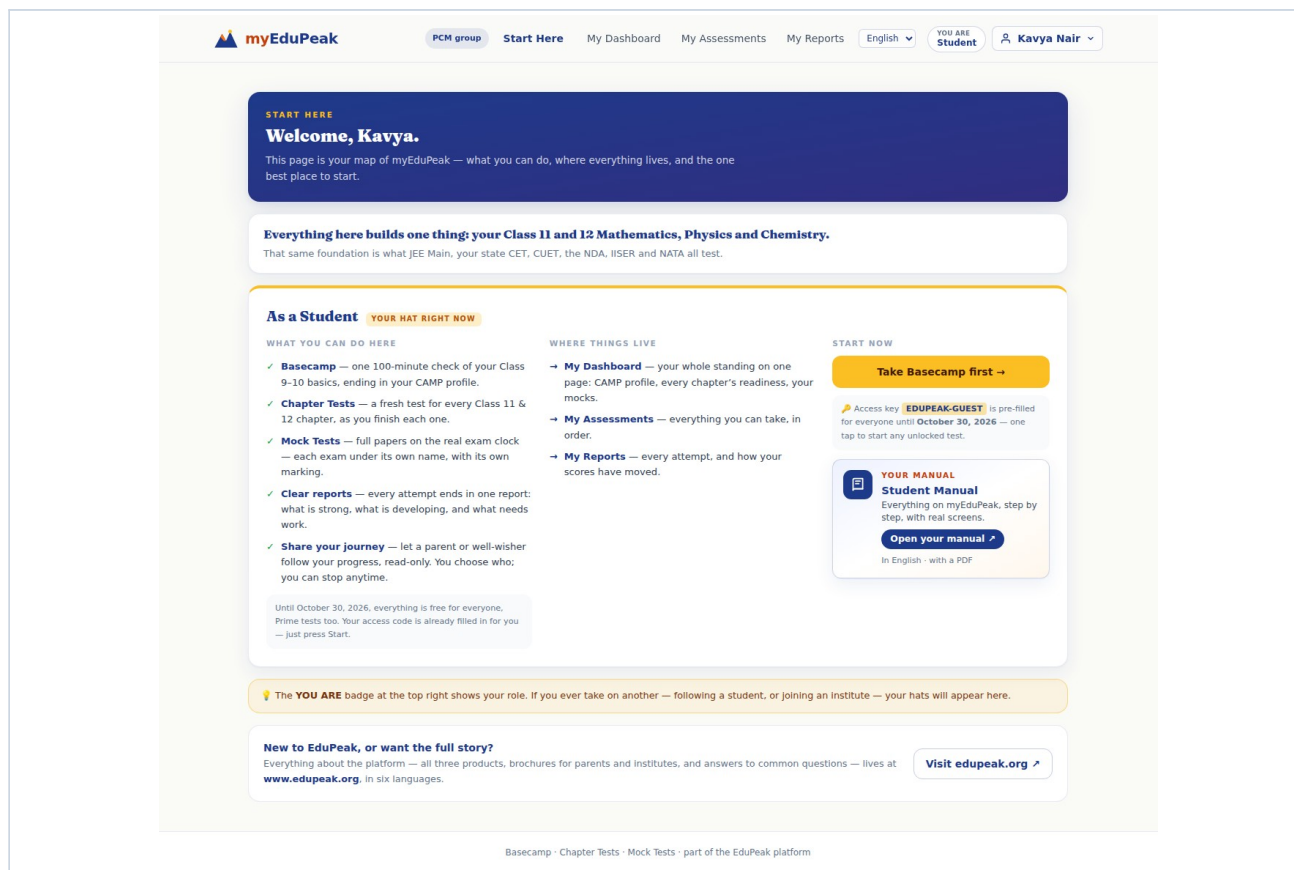

Figure 11. Start Here for a student. The free-period date and the pre-filled access key are in the middle; Your manual is under the button.

Under the button, **Your manual** opens this manual on edupeak.org in a new tab — chapter by chapter, with a PDF to download. It is there whenever you are not sure what something does.

My Dashboard

My Dashboard is your whole standing on one page: your Basecamp, your chapters and your Mock Tests. Open it from the top bar.

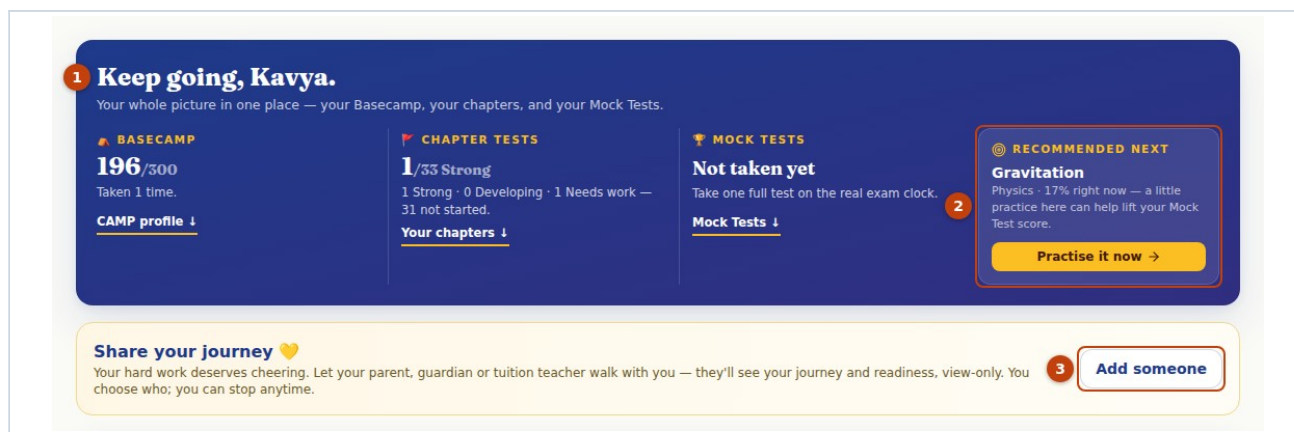

Figure 12. The top of Kavya's dashboard after one Basecamp and two Chapter Tests.

	What you see
1	Keep going, [your name]. — three summaries: Basecamp (your best score out of 300), Chapter Tests (how many chapters are Strong, Developing and Needs work) and Mock Tests . The underlined links jump down the page.
2	Recommended next — the one chapter where a little practice can help your Mock Test score most. Press Practise it now → to start it. Before your first chapter test, it says Take your first chapter test .
3	Share your journey 🍷 — let a parent, guardian or tuition teacher follow your progress (Chapter 8).

Your CAMP profile

Below the summaries is **Your CAMP profile** from your best Basecamp: four bars, one for each letter of CAMP, with the Mathematics, Physics and Chemistry split shown under M. A line underneath names your strongest area and the one that needs the most practice. Buttons: **Retake Basecamp** and **Full CAMP report**. (Before your first Basecamp, the button reads **Take your first Basecamp**.)

Your chapters — how ready you are

This part lists every chapter of your group, in learning order, in three columns — one per subject. Use **Class 11** and **Class 12** at the top right to switch class.

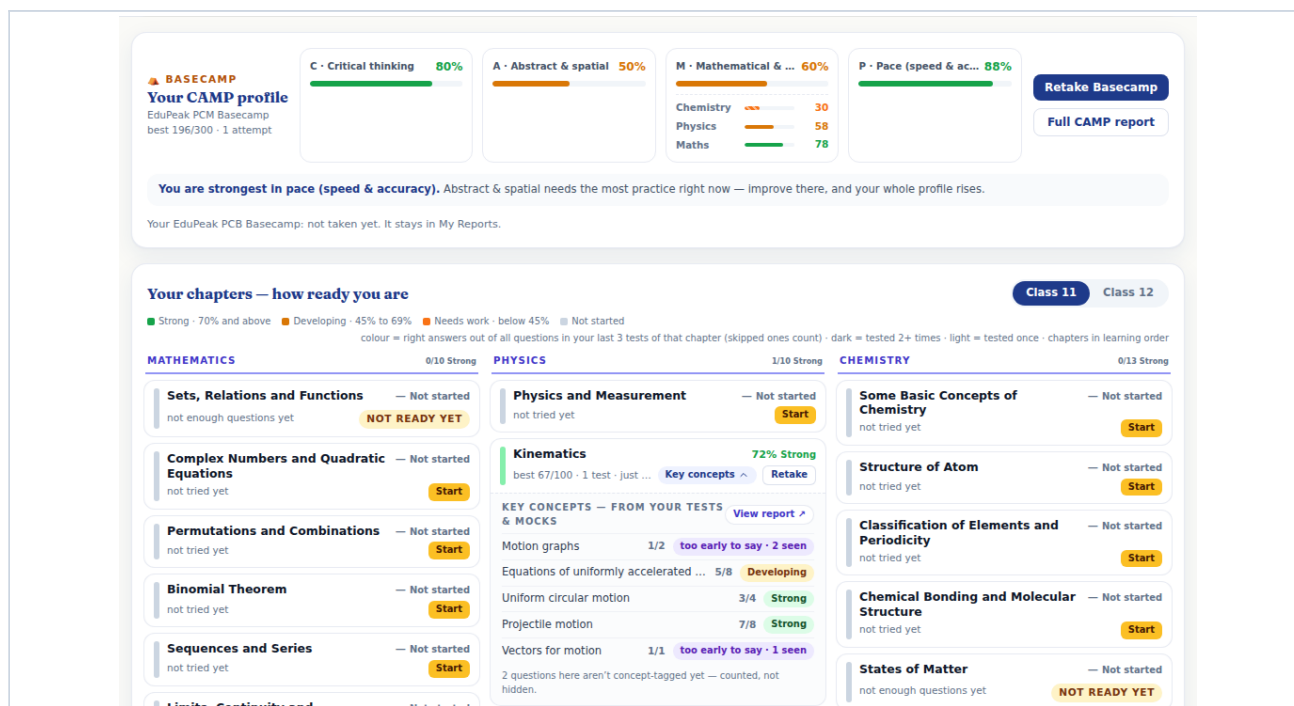

Figure 13. The CAMP profile and the chapter list. Kinematics is open, showing its key concepts.

What the colours mean

Colour	Meaning
Strong	70% and above
Developing	45% to 69%
Needs work	below 45%
Not started	you have not tested this chapter yet

The colour is **right answers out of all questions in your last 3 tests of that chapter** — skipped questions count, so leaving a question blank lowers the colour just like a wrong answer. Your older tests stop counting once you have taken three newer ones, so the colour always shows where you stand **now**.

Dark or light? A **dark** colour means you have tested the chapter **2 or more times** — the colour is settled. A **light** colour means you have tested it **once** — take it again to confirm it. The row says which: **in your first test** or **in your last 2 tests** / **in your last 3 tests**.

Tip The same colours, the same rule and the same legend are used on My Dashboard, on My Assessments and in My Reports — a chapter is one colour everywhere.

Each chapter row

- **Start** — take your first test of this chapter. **Practise** or **Retake** — take it again (you get new questions).
- **Key concepts ▼** — opens the chapter's key concepts from your tests and mocks, each with its own band (or **too early to say** when there are too few questions), and a **View report ↗** link.
- **NOT READY YET** — there are not enough questions yet for a fair test. Nothing you need to do; it opens when it is ready.

Your Mock Tests

At the bottom, **Your Mock Tests** shows each exam you have practised: your best and average score and the number of attempts, plus a short note on what would lift your score most (for example, answering more questions). Buttons: **Take a Mock Test →** and **All Mock Test reports**.

Tip If you left a test in the middle, a **Continue where you left off** strip appears on My Dashboard and My Assessments, with a **Resume** button. Remember that the clock kept running while you were away — if your time ran out, the strip says **Your time's up — open it to submit and see your result**.

5 My Assessments: choosing a test

My Assessments shows everything you can take, in order. Basecamp shows your starting level. Chapter Tests build your subjects chapter by chapter. Mock Tests show how ready you are.

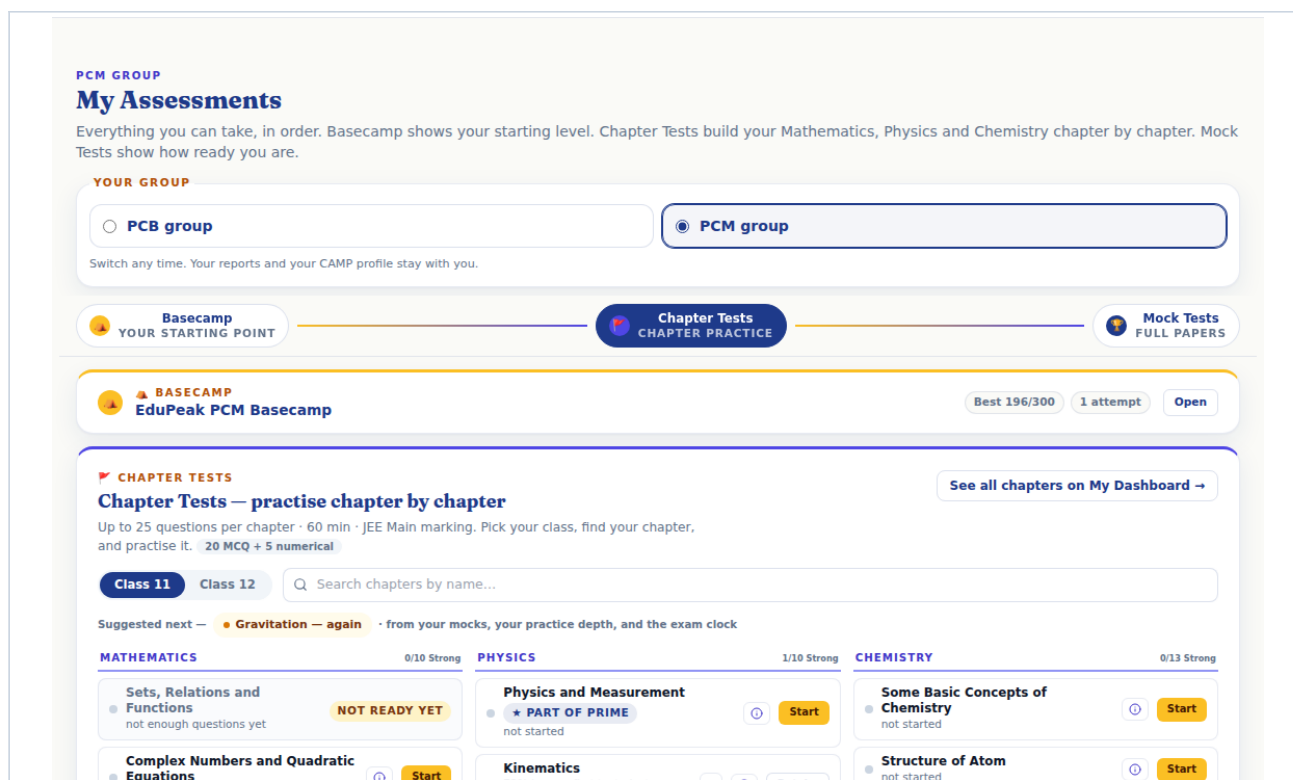

Figure 14. My Assessments: Your group at the top, then the three stages — Basecamp, Chapter Tests and Mock Tests.

Your group

Under **Your group**, choose **PCM group** or **PCB group**. Switch any time — your reports and your CAMP profile stay with you. The whole page (and the chip in the top bar) changes to that group's tests.

The three stages

Press **Basecamp**, **Chapter Tests** or **Mock Tests** on the line near the top to jump to that stage. Each stage is a card; press **Open** on a closed card to see it in full.

Basecamp

One 100-minute test in 6 sections that checks your Class 9–10 basics and builds your CAMP profile. The card shows your best and last score and the six sections it measures: **Logical Reasoning**, **Spatial Reasoning**, **Mastery — Mathematics (9 & 10)**, **Mastery — Physics (9 & 10)**, **Mastery — Chemistry (9 & 10)** and **Speed & Accuracy**. Press **Take your first Basecamp →** (later: retake) to open the Start dialog.

Chapter Tests

Up to 25 questions per chapter (20 MCQ + 5 numerical), 60 minutes, JEE Main marking. Pick your class, find your chapter (there is a search box), and press **Start**. A **Suggested next** chip points to a good chapter to practise. Chapters marked **★ PART OF PRIME** are part of the Prime membership — during the free period they are open to everyone.

Reading the chapter list

The chapter list has one column per subject (with **Strong** counted at the top of each column, for example **1/10 Strong**). Every chapter row tells you three things at a glance: its **colour** (how ready you are), its **labels** and its **buttons**.

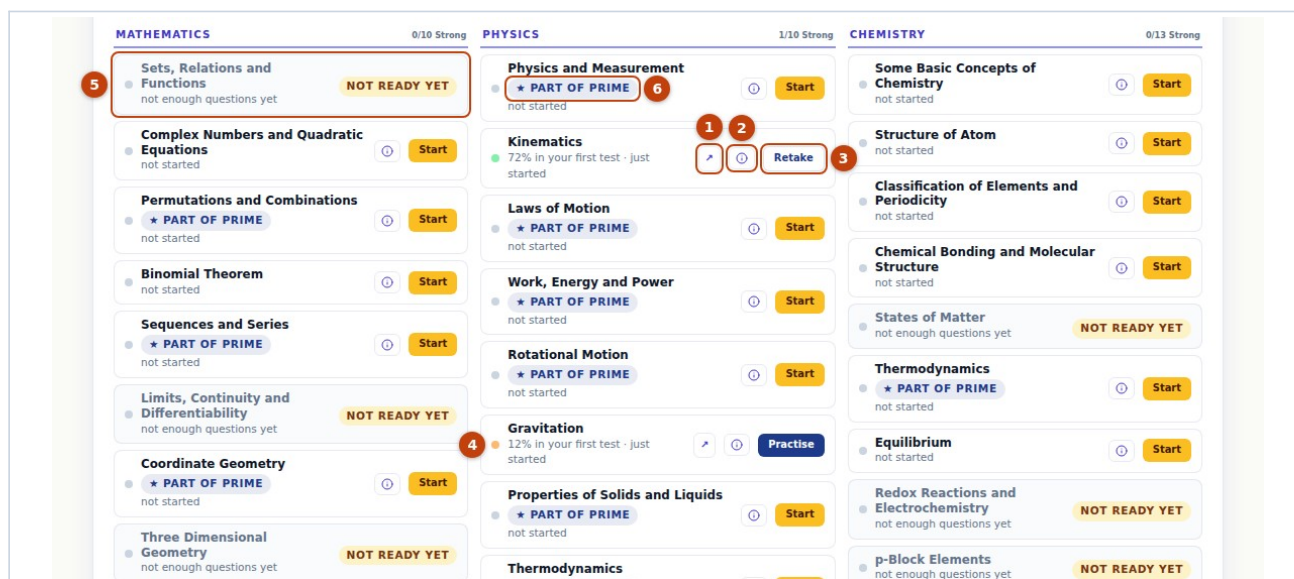

Figure 15. Kavya's Class 11 chapters on My Assessments. Kinematics is light green (Strong, one test); Gravitation is light orange-red (Needs work, one test).

	What it is	What it does
1	↗ View latest report	Opens the report of your latest test of this chapter. It appears once you have taken the chapter.
2	① What this test covers	Opens the chapter's coverage under the row (see below). Press it again to close.
3	Start / Practise / Retake	Start — you have not taken this chapter yet. Practise — you have, and it is not yet Strong. Retake — it is Strong; take it again to keep it there. You get new questions each time.
4	The coloured dot	Your readiness in the chapter — see the colours below. Grey = not started.
5	NOT READY YET	There are not enough questions yet for a fair test. Nothing to do — it opens when it is ready.
6	★ PART OF PRIME	Part of Prime, the yearly EduPeak membership. During the free period it is open to everyone.

Under each name the row says how you did — for example **72% in your first test**, or **18% in your last 2 tests** — and, once you have taken a chapter more than 3 times, how many tests you have taken. A chapter marked **Also in Class 12** appears in both classes.

The colours — and the legend

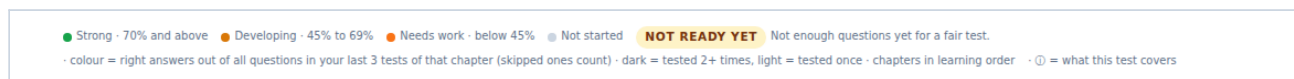

Figure 16. The legend under the chapter list.

Colour	Meaning
 Strong	70% and above
 Developing	45% to 69%
 Needs work	below 45%
 Not started	you have not tested this chapter yet

- **Colour = right answers out of all questions in your last 3 tests of that chapter.** Skipped questions count.
- **Dark = tested 2 or more times. Light = tested once.** A light colour is a first reading — take the chapter again to confirm it.
- Chapters are listed in **learning order** — the order your teachers usually teach them.

What this test covers

Press  on any chapter to see what its test checks before you take it:

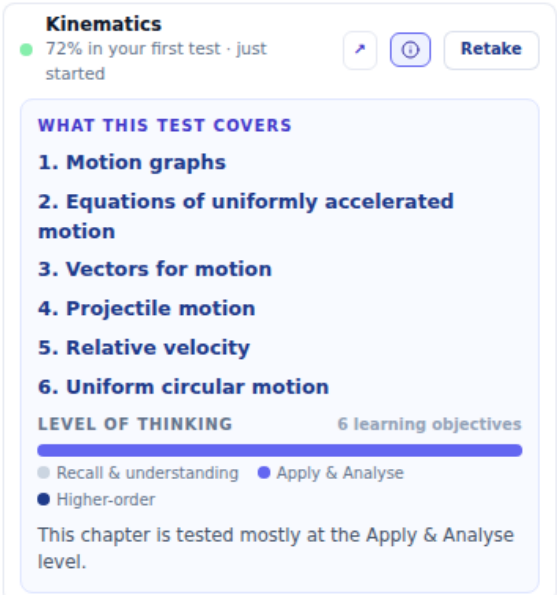

Figure 17. Kinematics with  pressed: its key concepts and the level of thinking it is tested at.

- **Key concepts** — the numbered list of the ideas the test asks about (for Kinematics: motion graphs, equations of uniformly accelerated motion, vectors, projectile motion, relative velocity, uniform circular motion).
- **Level of thinking** — a bar split into **Recall & understanding**, **Apply & Analyse** and **Higher-order**, with the number of learning objectives behind it.
- A line that sums it up — for example **This chapter is tested mostly at the Apply & Analyse level.**

Tip Use  to revise before a test: read the key concepts, and if the chapter is tested mostly at Apply & Analyse, practise solving problems rather than re-reading notes.

You can also see all chapters of a class on one page (**Browse all chapters**): pick **Class 11** or **Class 12**, filter by subject, and search by name.

Figure 18. Browse all chapters. Each chapter has a Start button, or Not ready yet when there are not enough questions for a fair test.

Mock Tests

Each exam has its own papers and its own marking, under its own name. An exam marked **AVAILABLE NOW** has papers you can take today; the card says how many questions, how long, and how it is marked (for example, JEE Main: 75 questions · 180 min). After you take papers, the card shows your **Best**, your **Average** and **Papers done**, with your **Recent attempts**.

- **Take your first paper** → opens a suggested paper to start with.
- **Browse all ... papers** → opens the full list, grouped by exam session, with filters for year and session.
- Under **More exams — each with its own date, or planned** you can see exams that are coming. EduPeak never puts one exam's paper behind another exam's name.

6 Taking a test

Before you start: the Start dialog

When you press **Start** on Basecamp or a chapter, a Start dialog opens. It tells you everything about the test before the clock begins: how many questions, how many minutes, the marking (for example **Section A: +4 for a right answer, -1 for a wrong one**), and, under **What this test covers**, the key concepts and the level of thinking.

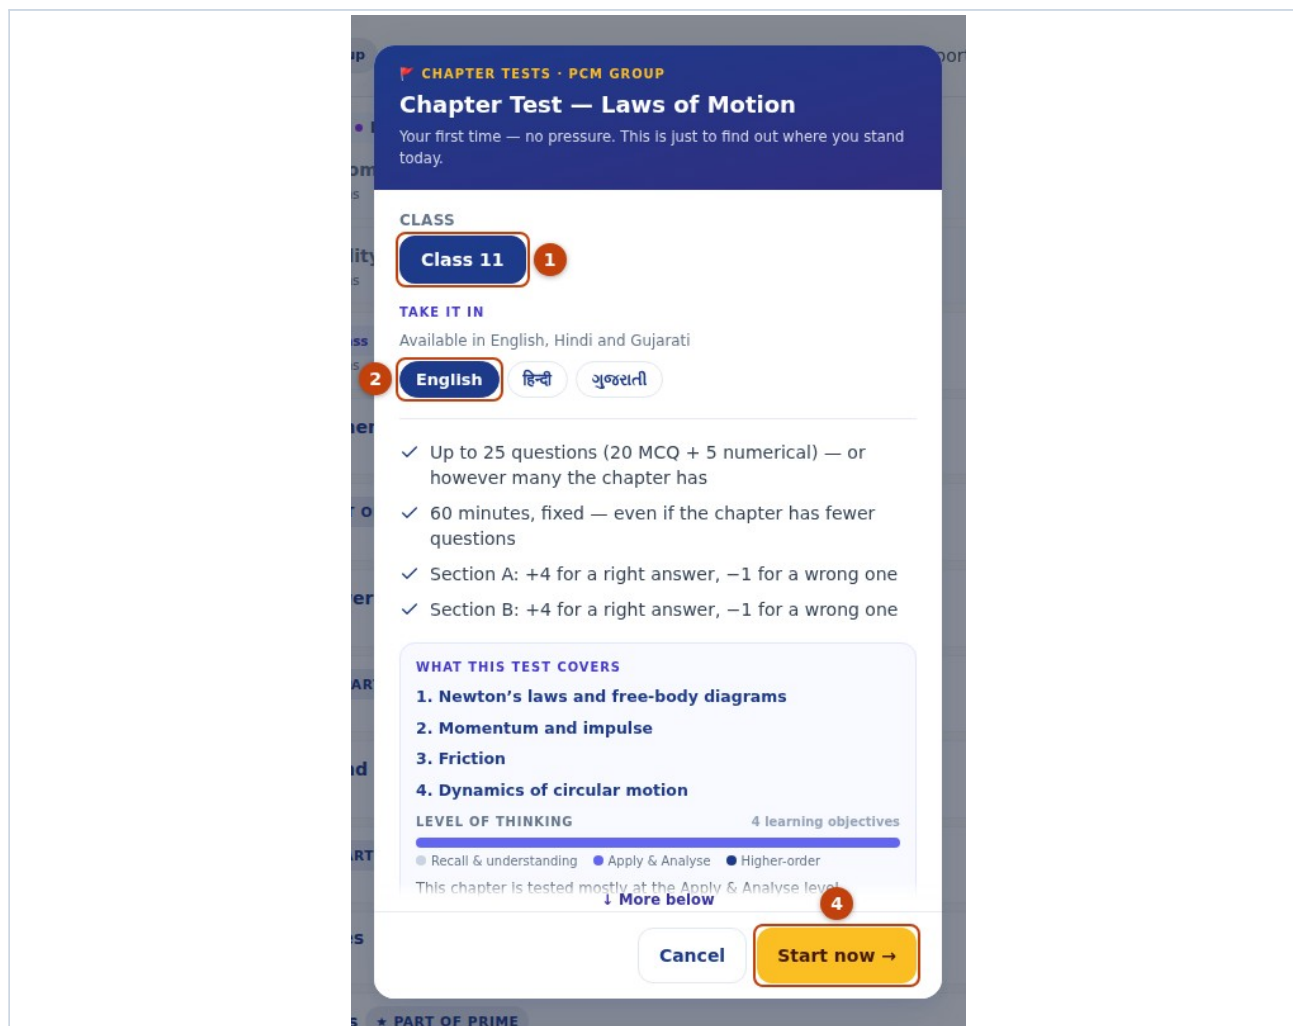

Figure 19. The Start dialog for a Chapter Test. Choose the class (1) and the language (2), then press Start now (4).

1. Check the **Class** (1) — for a chapter that is in both Class 11 and Class 12, choose which one.
2. Under **Take it in**, choose the **language** (2). The line above says which languages this test is available in — for example **Available in English, Hindi and Gujarati**. The dialog starts in the language you are using, when the test has it. Choosing another language here switches **all of myEduPeak** to it — the menus, the test and your report — and the dialog says so.
3. Scroll down to the **Access code** box (3). During the free period it is already filled in. If the test is **Part of Prime** and your school or coaching gave you a code, type it here.
4. Press **Start now →** (4). The clock starts. (Press **Cancel** if you are not ready.)

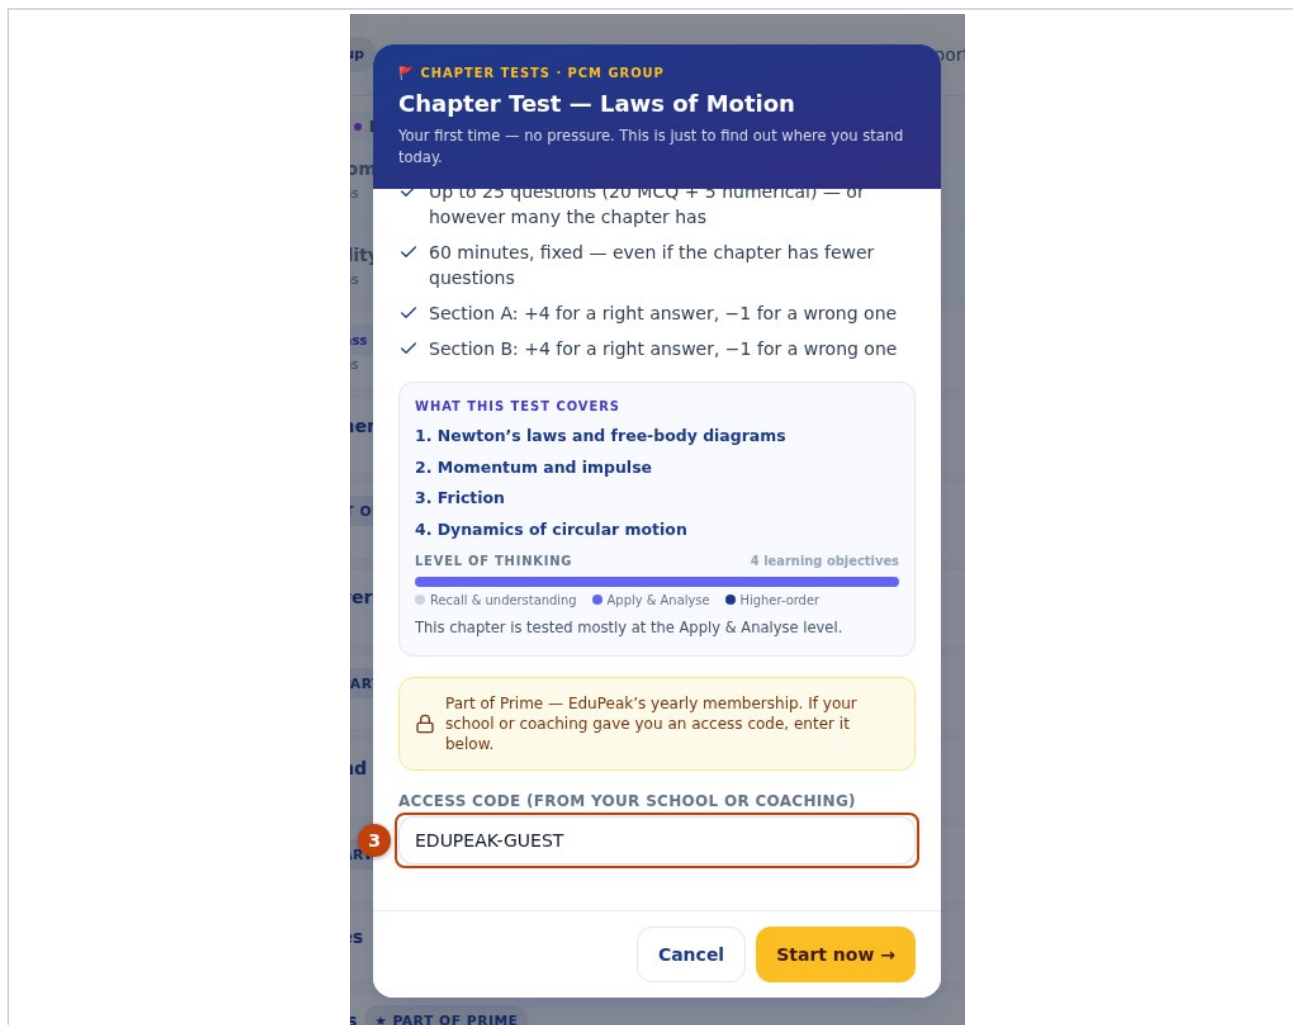

Figure 20. The bottom of the same dialog: a Part of Prime chapter, with the access code already filled in (3).

Tip Your first time? The dialog says **Your first time — no pressure. This is just to find out where you stand today.** After that it shows how many times you have taken the test and your best score — go beat it.

Starting a Mock Test

Mock papers start from the paper's own page:

1. Open a paper (from **Take your first paper** → or **Browse all papers**). The page shows the questions, total marks, duration, **Access** (for example **Free**), what is in the paper and the marking scheme. Press **Take this paper** (1).
2. Read **Before you begin**: duration and format, marking, **During the exam**, and **One attempt only** — once submitted (or once the time is over), the paper is closed and you cannot take the same paper again. Then tick the box that says the paper was made with help from AI and that you understand AI can have inaccuracies at times (2).
3. Press **Start exam** (3). The exam clock begins the moment you press it.

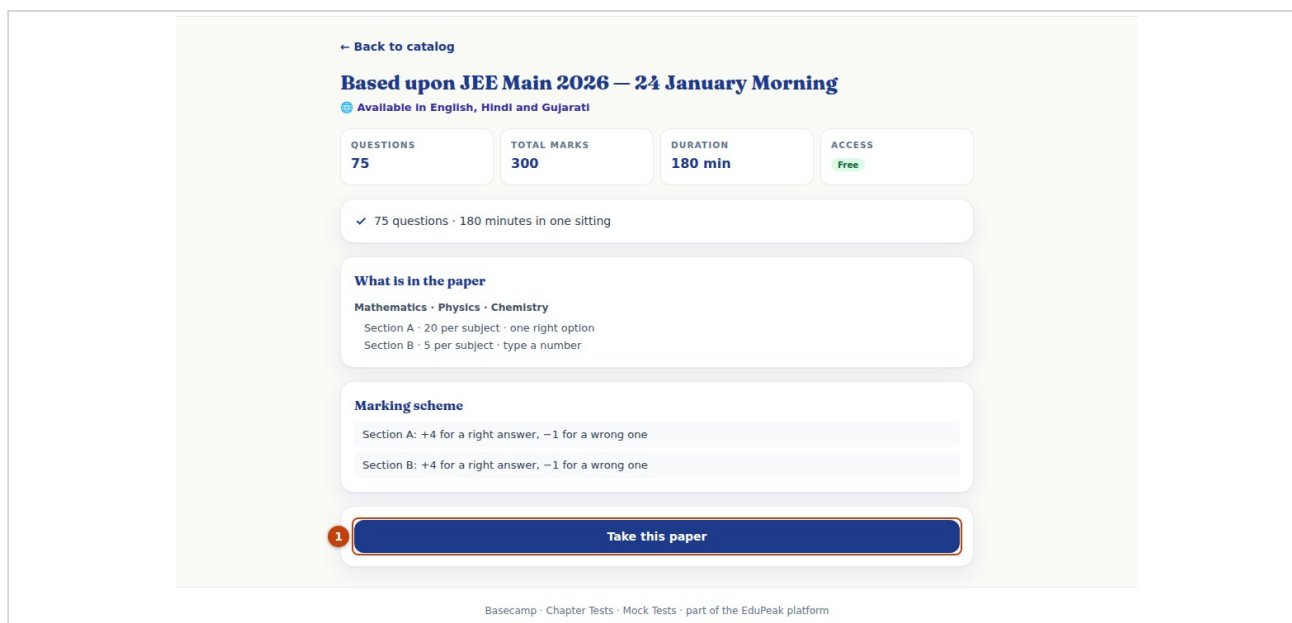

Figure 21. A mock paper's page: its size, marks, duration, access and marking. Press Take this paper (1).

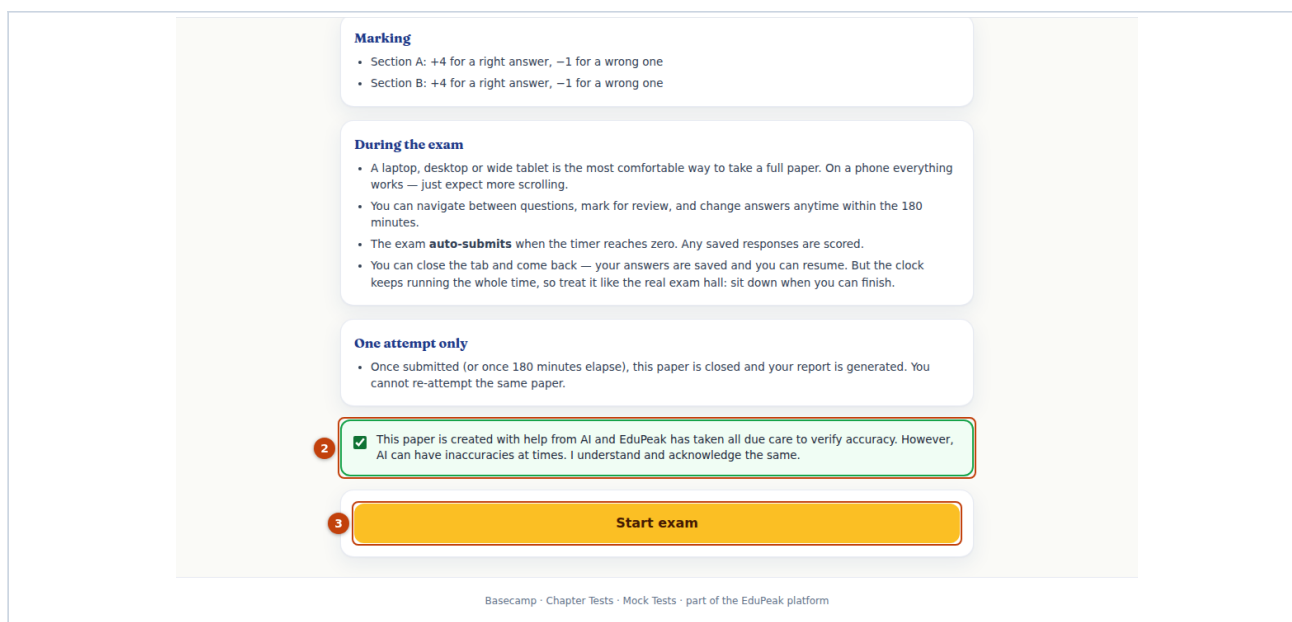

Figure 22. The end of the mock paper instructions: the acknowledgement tick (2) and Start exam (3).

Note A mock paper's questions are in the language you are using for myEduPeak, wherever the paper has them; a question not yet translated appears in English. The paper page lists its languages, for example **Available in English, Hindi and Gujarati**.

The test screen

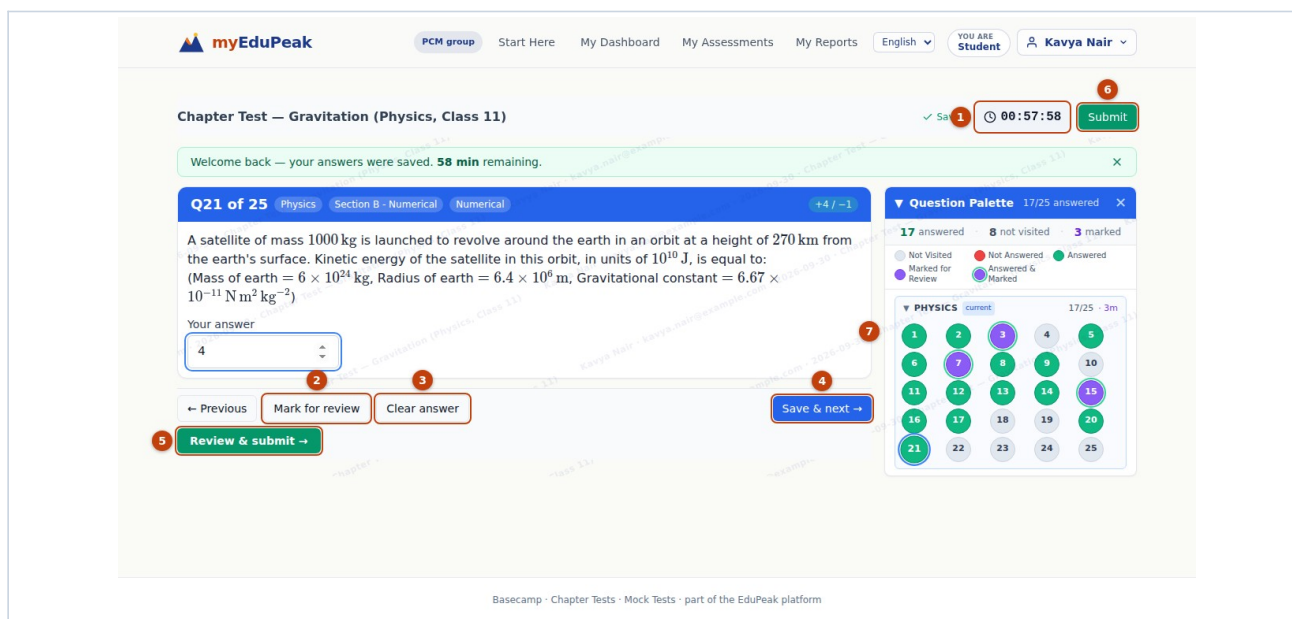

Figure 23. The test screen during a Chapter Test (here, a numerical question). The watermark with your name is faint across the page.

	What it does
1	Timer — the time left. Next to it, Saved tells you your last answer reached EduPeak (Saving... while it is on its way).
2	Mark for review — flags the question so you can come back to it. Press again to Unmark for review .
3	Clear answer — removes your answer to this question.
4	Save & next → — saves your answer and moves to the next question. ← Previous goes back one.
5	Review & submit → — opens the submit check (see below).
6	Submit — the same, from the top of the screen.
7	Question Palette — a numbered button for every question. Press a number to jump there. Press the palette's heading to fold or unfold it. On a phone or tablet, open it with the Palette button at the top and close it with X .

Each question shows its number (for example **Q21 of 25**), the subject, the section, the type (MCQ or Numerical) and its marks (for example **+4 / -1**). For a multiple-choice question, press an option. For a numerical question, type the number in **Your answer**.

Palette colours

Colour	Meaning
Grey — Not Visited	You have not opened this question yet.
Red — Not Answered	You opened it but left it without an answer.
Green — Answered	Your answer is saved.
Purple — Marked for Review	Flagged, no answer yet.

Colour	Meaning
Purple with green ring — Answered & Marked	Answered and flagged. It is still scored.

The top of the palette counts how many you have **answered**, **not visited** and **marked**.

In your language — and Show in English

The questions are in the language you are using for myEduPeak (chapter 9). A translated question has a line at its top: **If in doubt, switch to English and check the original question.** Press **See original (English)** to read the English original. English then **stays on for the rest of the test** — question after question, even after a reload — while the menus stay in your language. Press **Back to [your language]** to switch back.

Figure 24. A test in Hindi with English switched on: the line says English is on for the rest of this test, and the button switches back to Hindi.

Sections and parts

Some tests are split into blocks, each with its own clock:

- **Basecamp** has **6 sections**, each separately timed. A strip at the top shows each section and its minutes; the current one says **NOW** • ... **LEFT**. Time isn't shared between sections.
- To move on, press **Finish section → Next: [section name]**. EduPeak asks **Move to the next section?** — you won't be able to return to the section you are leaving. Press **Next section →** or **Stay in this section**.
- When a section's clock reaches zero, you move to the next section automatically.
- Some mock exams (for example JEE Advanced) come in **parts**, with a break between them. After a part, you can start the next part straight away or come back later within the time shown — the screen tells you exactly when the next part opens and by when you must start it. You can close the tab during a break; nothing is lost.

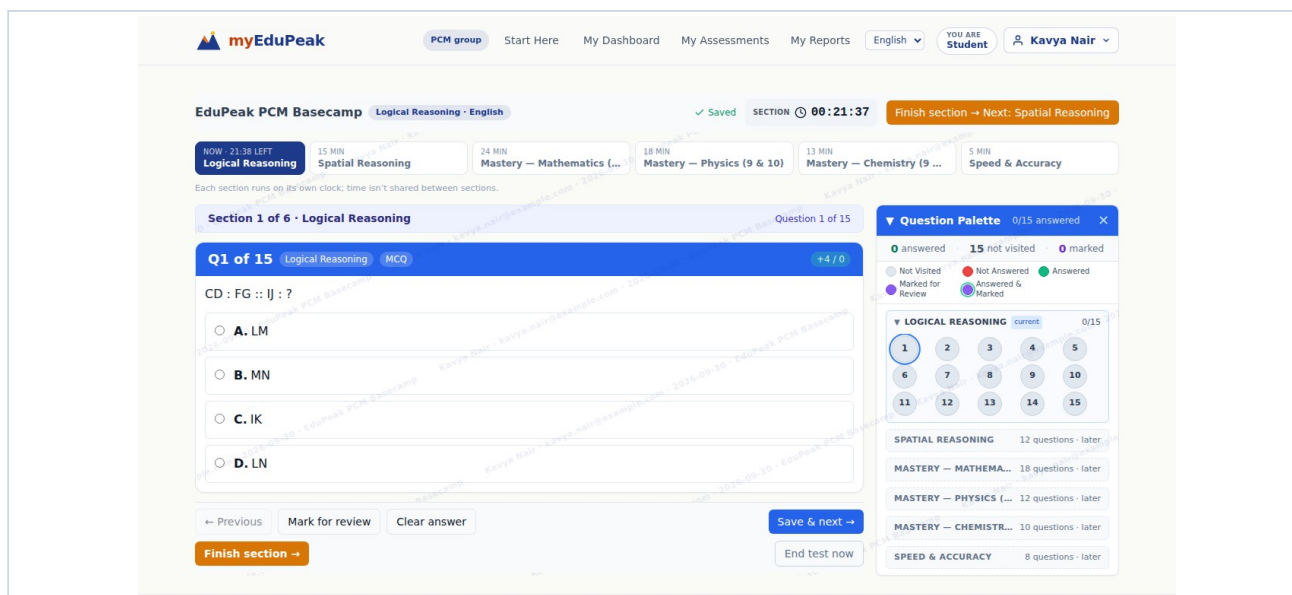

Figure 25. Basecamp: the six sections, each with its own clock, and the Finish section button (orange, top right).

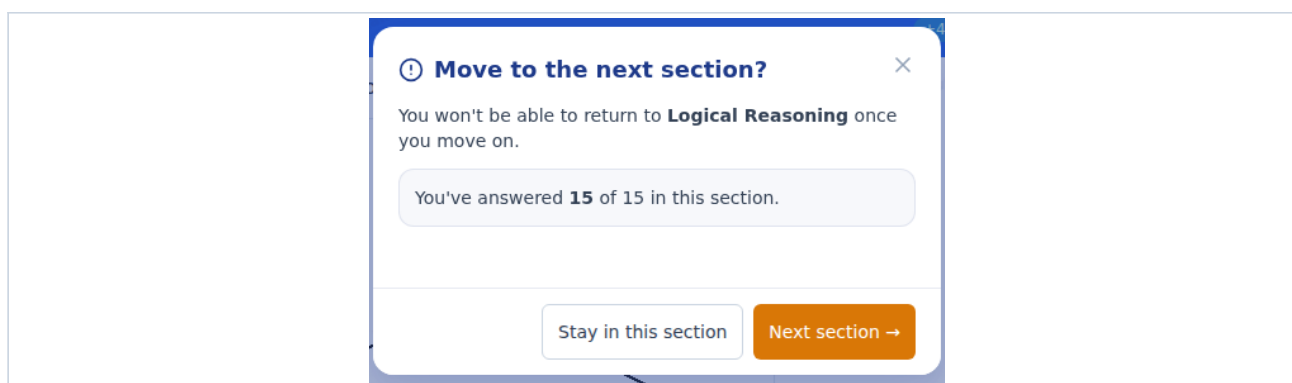

Figure 26. Leaving a Basecamp section. Once you move on, you cannot return.

Submitting

1. Press **Review & submit →** (or **Submit**). The **Submit your test?** check shows how many questions you have answered and how many are unanswered.
2. If you still have unanswered questions **and** a lot of time left (a quarter of the clock or more), EduPeak asks you to type **SUBMIT** in the box, just to be sure.
3. Press **Submit test** — or **Keep working** to go back. Once submitted, your answers are final and the test ends.
4. Your report opens straight away.

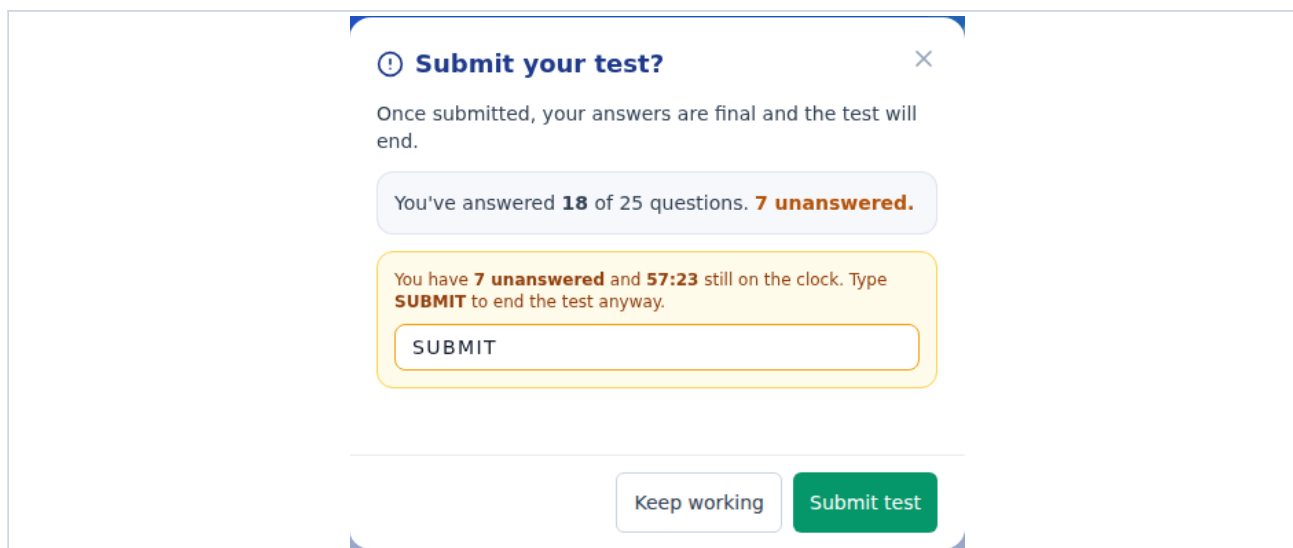

Figure 27. The submit check: 7 questions unanswered and 57 minutes left, so EduPeak asks you to type SUBMIT.

If time runs out, or you close the tab

- **Time runs out:** the test submits itself when the timer reaches zero. Every answer that was saved is scored.
- **You close the tab or your battery dies:** your answers are saved. Open myEduPeak again and use **Resume** (on your dashboard) — the test says **Welcome back — your answers were saved.** and how many minutes remain. But **the clock keeps running the whole time**, like a real exam hall, so sit down when you can finish. If the time ran out while you were away, open the test from the strip to submit it and see your report.
- **Your internet drops:** the indicator next to the timer shows **Not saved — retrying.** Keep going; EduPeak keeps trying. When it shows **Saved** again, your answers are safe.
- **You change the language during a test:** the questions change too, on the same question. Your answers, marks for review and the clock are not touched.

Important Treat every test like the real thing: find a quiet time when you can finish in one sitting. A laptop, desktop or wide tablet is the most comfortable for a full paper; on a phone everything works — just expect more scrolling.

7 Your reports

Every attempt ends in one report: what is strong, what is developing, and what needs work. Reports show **only your own numbers — no ranks, no comparisons.**

The Basecamp report (your CAMP profile)

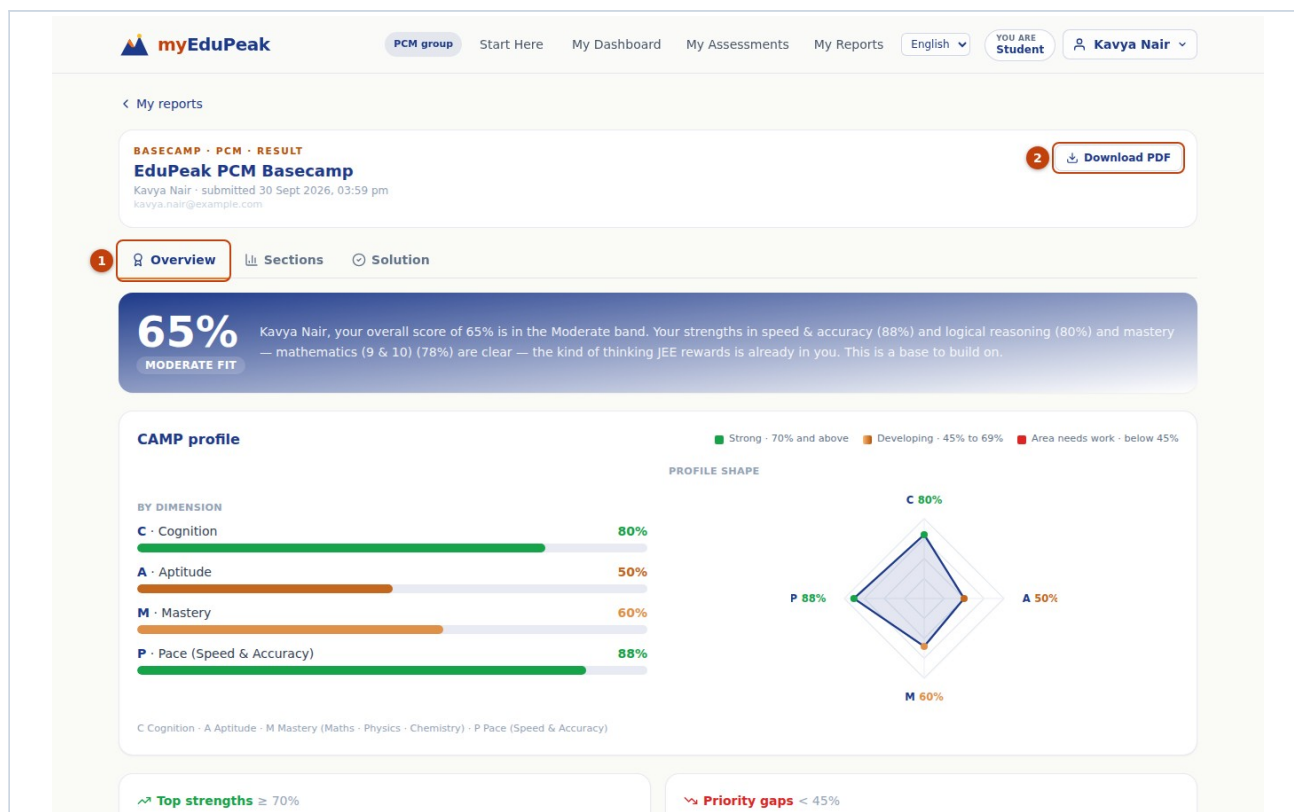

Figure 28. The Basecamp report, Overview tab. Download PDF is at the top right (2).

The Basecamp report has three tabs (1):

- **Overview** — your overall percentage and band, a sentence about your strengths, and the **CAMP profile**: a bar and a “profile shape” for each of the four dimensions — **C · Cognition**, **A · Aptitude**, **M · Mastery** (Maths, Physics, Chemistry) and **P · Pace (Speed & Accuracy)**. Below it: **Top strengths** (70% and above) and **Priority gaps** (below 45%).
- **Sections** — a closer look inside each of the 6 sections: right answers, Easy · Medium · Hard, **Topic hints**, time used, and a one-line comment.
- **Solution** — every question, with filters for **Subject**, **Status** (Answered, Skipped) and **Correctness** (Correct, Incorrect, Unattempted), a search box and **Go to Q#**. Open a question to see its solution.

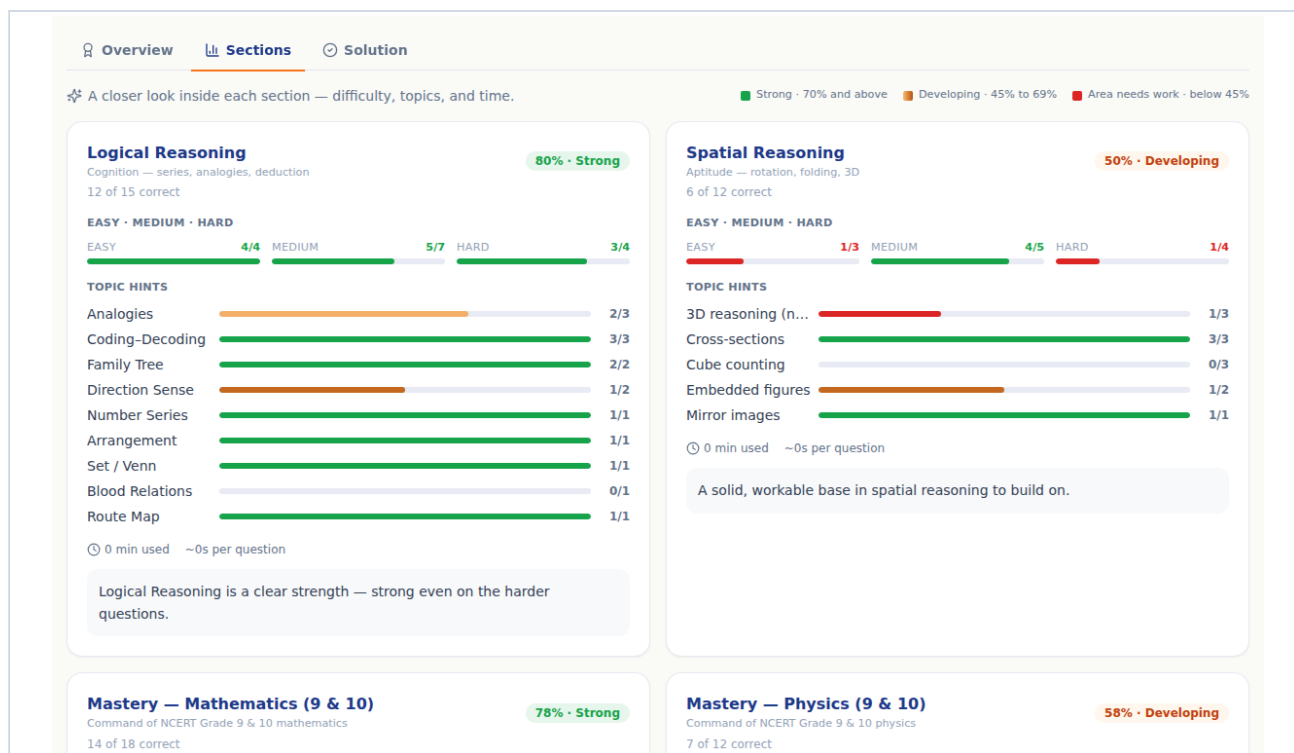

Figure 29. The Sections tab: each Basecamp section with its band, difficulty split and topic hints.

Bands: **Strong** 70% and above · **Developing** 45% to 69% · **Area needs work** below 45%. If you did not reach every section, the report says it is a **Partial attempt** and scores only the sections you tried.

Note On your dashboard the same four letters are labelled a little differently — **C** · **Critical thinking**, **A** · **Abstract & spatial**, **M** · **Mathematical & science**, **P** · **Pace (speed & accuracy)**. They are the same four dimensions.

Download PDF on the Basecamp report opens a clean print view of **Overview** and **Sections** (never the **Solution** tab) and your browser's print window. Choose **Save as PDF**.

The Chapter Test and Mock Test report

Chapter Tests and Mock Tests share one report design. It opens straight after you submit, and any time from **My Reports**.

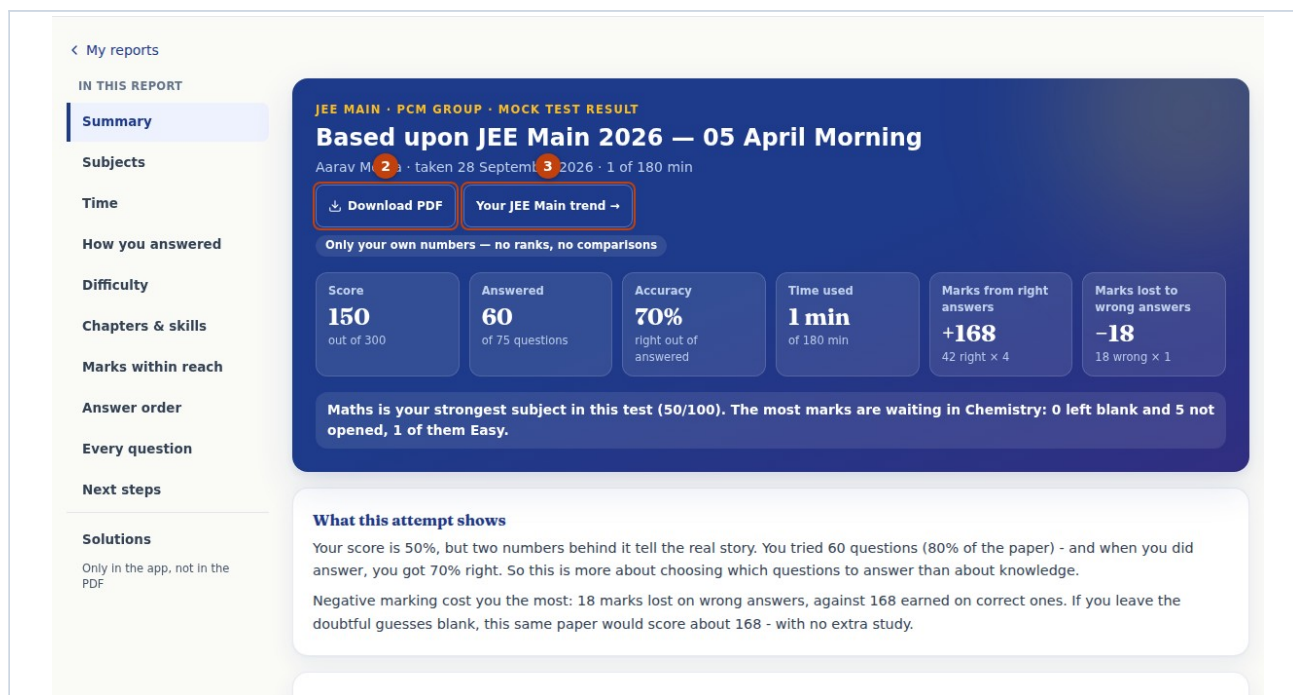

Figure 30. The top of a Mock Test report (Aarav's JEE Main paper). The left column (1) lists the report's sections.

The top of the report

- The heading names the test, your name and the date.
- **Download PDF** (2) and **Your ... trend →** (3), which opens My Reports.
- The score boxes: **Score**, **Answered**, **Accuracy** (right out of answered), **Time used**, and for mocks **Marks from right answers** and **Marks lost to wrong answers**.
- A one-line summary, then **What this attempt shows** — a short, honest reading of your result.
- For a Chapter Test, two chips: **This test** (its score and band) and the **chapter band** — the colour that goes on your dashboard, from your last 3 tests of that chapter.

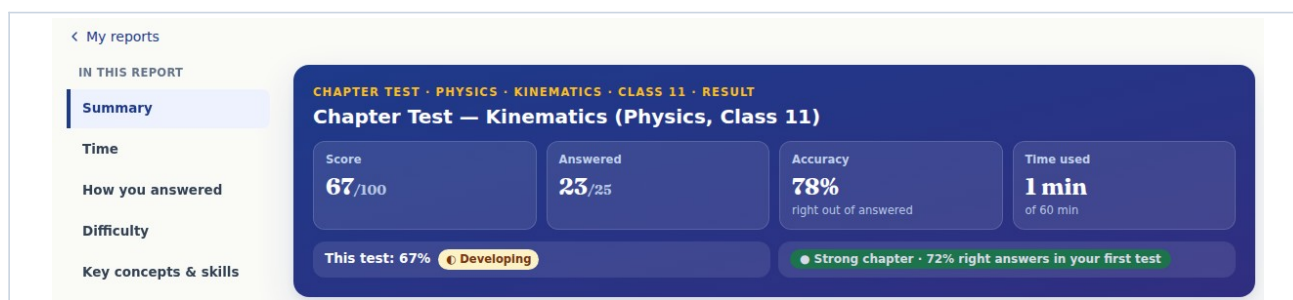

Figure 31. The top of a Chapter Test report: This test 67% (Developing), and the chapter band Strong (72% right answers).

Moving around: the left column

On a laptop, the column **In this report** lists the sections; press one to jump there. The sections are:

Section	What it shows
Summary	The score boxes and what this attempt shows.
Subjects	(Mock Tests) Marks per subject, with a table of right, wrong, left blank, not opened, accuracy and time — and a section breakdown.
Time	Where your time went: on right answers, wrong answers and questions left blank, and how many answers you gave in each half hour.

Section	What it shows
How you answered	Every question put into one of seven groups (below).
Difficulty	Right out of asked for Easy, Moderate and Tough questions.
Chapters & skills / Key concepts & skills	Chapter bands (mocks) or key-concept bands (chapter tests), the kind of thinking asked, and learning outcomes to work on.
Marks within reach	Simple arithmetic on this paper — for example, what your score would have been if the quick wrong guesses had been left blank. Not a prediction.
Answer order	(Mock Tests) The order in which you answered the subjects.
Every question	The question map and filters (below).
Next steps	What to practise next, with a button to start it.
Solutions	Every question in a table, with its worked solution. Only in the app, not in the PDF.

How you answered — the seven groups

Each question has a **guide time** from its difficulty and subject (for example Easy Chemistry 1 min 12 s; +30 s for a numerical). Your time on the question and the result put it in one group:

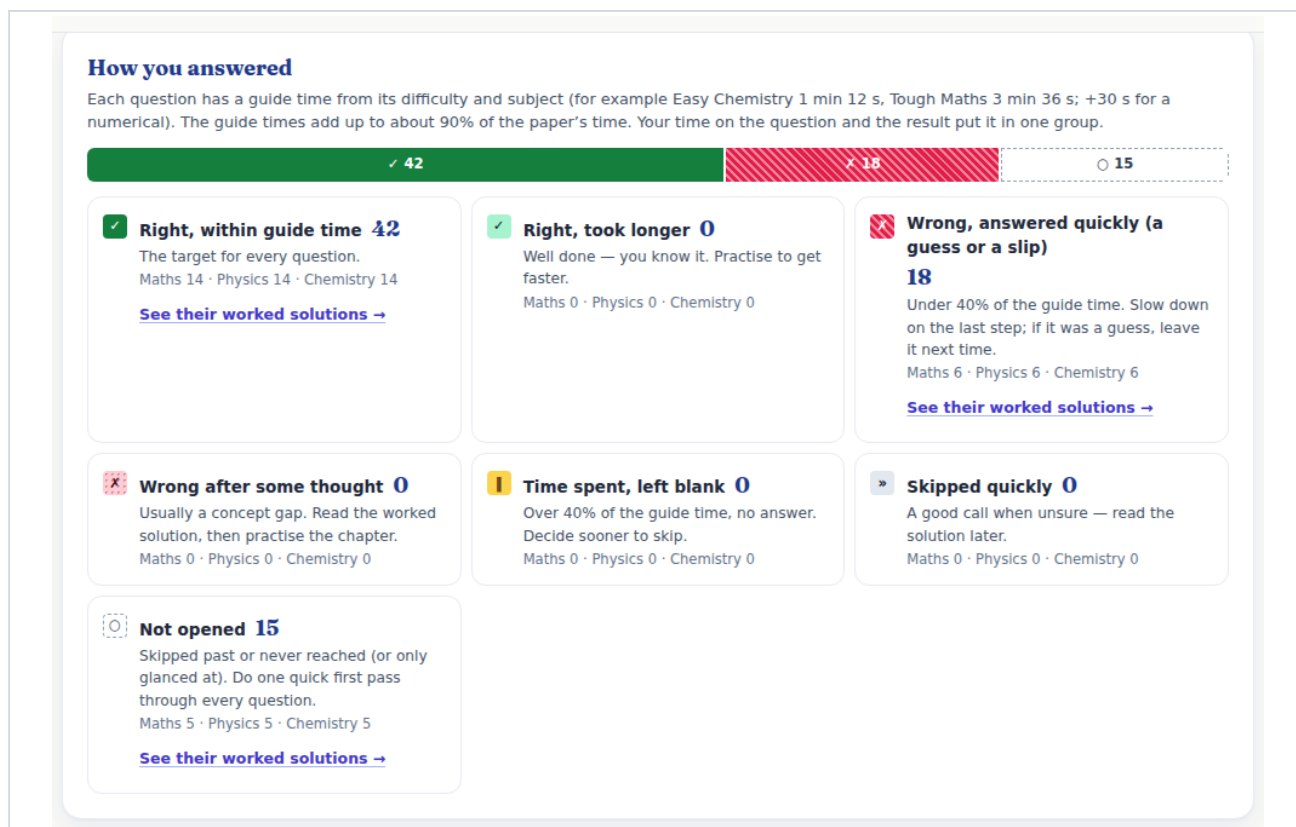

Figure 32. How you answered. Press [See their worked solutions →](#) on any group to step through just those questions.

Group	What it tells you
✓ Right, within guide time	The target for every question.
✓ Right, took longer	Well done — you know it. Practise to get faster.

Group	What it tells you
XWrong, answered quickly (a guess or a slip)	Under 40% of the guide time. Slow down on the last step; if it was a guess, leave it next time.
XWrong after some thought	Usually a concept gap. Read the worked solution, then practise the chapter.
 Time spent, left blank	Over 40% of the guide time, no answer. Decide sooner to skip.
» Skipped quickly	A good call when unsure — read the solution later.
○ Not opened	Skipped past or never reached. Do one quick first pass through every question.

Press **See their worked solutions** → on a group. The report filters to that group and opens the worked solution of its first question; **Next** and **Previous** step through that group only.

Every question: the question map and filters

Every question
Tap a question to see its worked solution. Then press Next to go through the questions you picked above — for example, only Wrong.

Chemistry

Figure 33. Every question with All (75) selected: ✓ right, Xwrong, dashed box = not opened, 🚩 marked for review.

- **Filters** at the top: **All**, **Wrong**, **Left blank**, **Not opened**, **Took longer**, **Marked for review**, and one per subject. The number in brackets tells you how many questions match.
- A **search box** finds questions by text, chapter or topic.
- The **Question map**: ✓ right · Xwrong · grey box = left blank · dashed box = not opened · orange top = took longer than the guide time · 🚩 marked for review.
- **Tap a question** to open its worked solution.

When you pick a filter — for example **Wrong (18)** — the map keeps every number in place but shows the ticks and crosses only for the questions in that filter, and **Next** then steps through those questions only. Press **All** to see your whole paper again.

The worked-solution panel

The panel opens at the side (full screen on a phone) and reads from top to bottom:

1. The heading: the question number, subject, chapter, key concept, type and difficulty, and **× Close**.
2. Your result (for example **× Wrong**), **You took ... · guide time ...**, your **Marks**, and the group it fell in.
3. **QUESTION** — the full question.
4. **OPTIONS** — your answer is marked **Your answer**, and the right one **Correct answer**.
5. **WORKED SOLUTION** — the solution step by step, then the chapter and topic.
6. At the bottom: **◀ Previous**, the position with the filter it follows (for example **3 of 75 · Filter: All questions**), and **Next ▶**. On a keyboard, **← →** move and **Esc** closes.

The screenshot displays the myEduPeak interface. On the left, the 'Question map' shows a grid of questions categorized by subject (Maths, Physics, Chemistry) and type (Single correct, Numerical). Question 3 is highlighted in red, indicating it is wrong. The main panel on the right shows the 'QUESTION AND WORKED SOLUTION' for Q3 Maths. The question is about matrices and determinants. The user's answer is A (16), which is marked as wrong. The correct answer is D (64). The worked solution explains the steps to solve the problem.

QUESTION AND WORKED SOLUTION × Close

Q3 Maths
Matrices and Determinants · Determinants and their properties · Single correct · Tough

× Wrong You took 0 s · guide time 3 min 36 s **Marks: -1**

How you answered: Wrong, answered quickly (a guess or a slip)

QUESTION

Let A be a 3×3 matrix such that $A^T \begin{bmatrix} 1 \\ 0 \\ 1 \end{bmatrix} = \begin{bmatrix} 5 \\ 2 \\ 1 \end{bmatrix}$,
 $A^T \begin{bmatrix} 0 \\ 1 \\ 1 \end{bmatrix} = \begin{bmatrix} 3 \\ 1 \\ 1 \end{bmatrix}$, $A \begin{bmatrix} 1 \\ 0 \\ 1 \end{bmatrix} = \begin{bmatrix} 3 \\ 4 \\ 4 \end{bmatrix}$ and $A \begin{bmatrix} 0 \\ 1 \\ 1 \end{bmatrix} = \begin{bmatrix} 3 \\ 1 \\ 1 \end{bmatrix}$. If $\det(A) = 1$, then $\det(\text{adj}(A^2 + A))$ is equal to:

OPTIONS

× A. 16 Your answer

B. 25

C. 49

✓ D. 64 Correct answer

WORKED SOLUTION

Idea: multiplying a matrix by a standard unit column picks out one of its columns; multiplying A^T by it picks out a row

◀ Previous **3 of 75** **Filter: All questions** **Next ▶**
 ← → next and previous · Esc to close

Figure 34. Question 3, opened from the map with All selected: QUESTION, then OPTIONS (your answer and the correct answer), then WORKED SOLUTION.

The screenshot shows the myEduPeak interface. On the left, the 'Every question' section displays a 'Question map' for Maths, Physics, and Chemistry. The Maths section shows a grid of 15 questions, with question 3 highlighted in red. The Physics section shows a grid of 10 questions, with question 28 highlighted in red. The Chemistry section shows a grid of 10 questions, with question 47 highlighted in red. On the right, the 'QUESTION AND WORKED SOLUTION' section for Q3 Maths is displayed. The solution involves finding the entries of a 3x3 matrix A given its columns and the determinant of A^2 + A. The solution steps include: finding column 1 as (3, 4, 4) - (1, 3, 1) = (2, 1, 3), giving a21 = 1. The only unknown entry is a22 = k. A = [[2, 1, 1], [1, k, 3], [3, 1, 1]]. Expand along row 1: det A = 2(k - 3) - 1(1 - 9) + 1(1 - 3k) = 2k - 6 + 8 + 1 - 3k = 3 - k. det A = 1 => k = 2. Now factorise: A^2 + A = A(A + I), so det(A^2 + A) = det A * det(A + I). A + I = [[3, 1, 1], [1, 3, 3], [3, 1, 2]], and det(A + I) = 3(6 - 3) - 1(2 - 9) + 1(1 - 9) = 9 + 7 - 8 = 8. So det(A^2 + A) = 1 * 8 = 8. For a 3x3 matrix M, det(adj M) = (det M)^2, hence det(adj(A^2 + A)) = 8^2 = 64. Correct option: (4).

Chapter: Matrices and Determinants
Topic: Reconstructing a matrix from products with unit vectors; determinant of an adjoint

3 of 75
Filter: All questions

Previous Next

Figure 35. Scrolling down the same panel: the end of the worked solution, the chapter and topic, and 3 of 75 · Filter: All questions.

Tip If a question has a figure, tap it to **enlarge** it — on a phone you can pinch to zoom. Wide formulas or tables scroll sideways.

The Solutions section

At the end of the report, **Solutions** lists all questions in a table: chapter and key concept, difficulty, thinking, guide time, time spent, result and group, each with **Worked solution** →. Its filter is shared with **Every question** — a change in one also changes the other.

Solutions Best on a laptop or tablet

All questions with their chapter, difficulty and time taken. Tap any question to see its worked solution. This part is only in the app. It is not in the PDF.

This filter is shared with Every question above. A change here also changes it there.

Figure 36. The Solutions section — only in the app, not in the PDF.

Download PDF

1. Press **Download PDF** at the top of the report.
2. Your browser's print window opens. On the next screen, choose **Save as PDF** and save it.

The PDF has your **scores and charts only**. Questions and worked solutions stay in the EduPeak app, and the printout says so. Every printed page carries your name, the words **EduPeak practice test** and the date it was printed.

My Reports

My Reports has every test you have taken, and how your scores have moved over time.

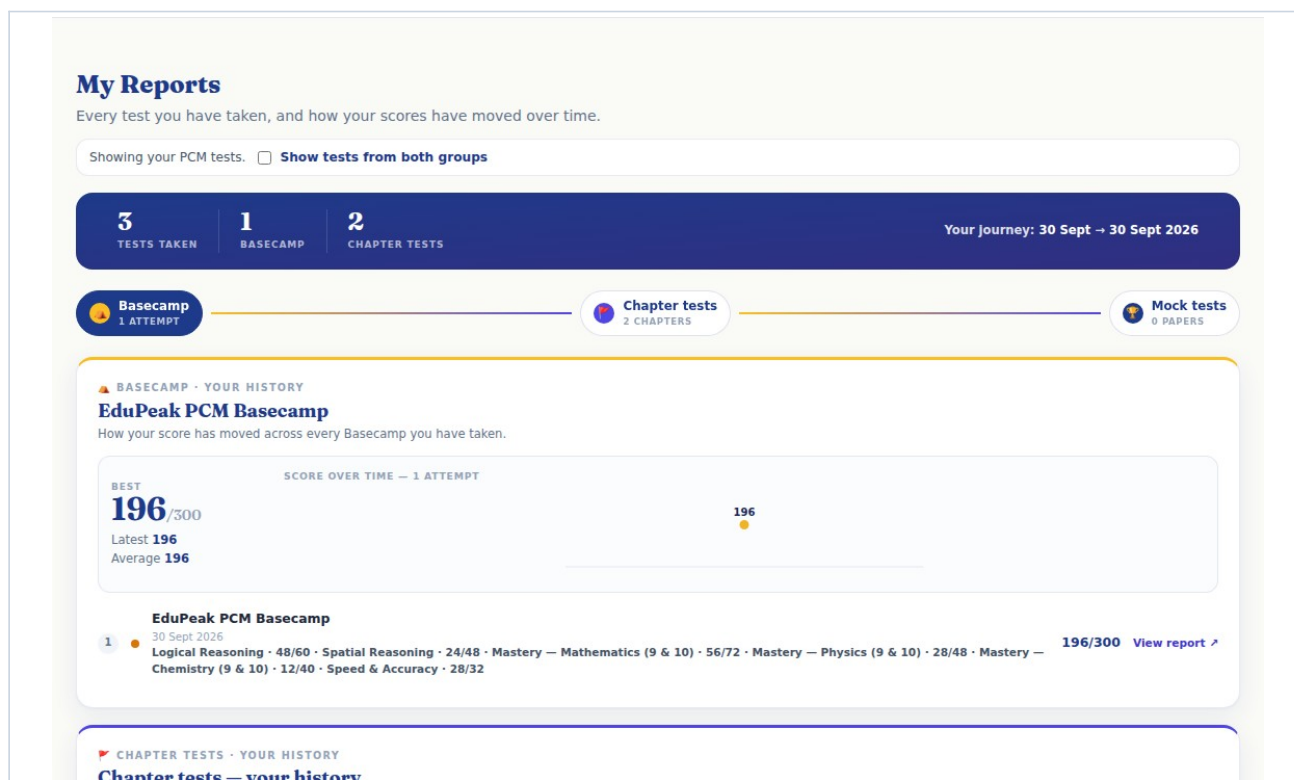

Figure 37. My Reports: the totals, then Basecamp, Chapter tests and Mock tests, each with its history.

- It shows your current group's tests. Tick **Show tests from both groups** to see PCM and PCB together.
- **Basecamp • your history** — your best, latest and average, a small chart of your score over time, and every attempt with **View report** ↗.
- **Chapter tests • your history** — only chapters you have tested, with class and band filters and an **Order** choice (**Most recent first** or **Needs most work first**). Tap a chapter to see every attempt.
- **Mock Tests • your history** — each exam on its own scale, with how many questions you tried, so a low score makes sense.

8 Sharing your progress

Your hard work deserves cheering. You can let a parent, guardian or tuition teacher — EduPeak calls them **Well-wishers** — follow your journey. They see your dashboards and reports exactly as you do, **view-only**. You choose who; you can stop anytime.

Invite a Well-wisher

On **My Dashboard**, in **Share your journey** 📄, press **Add someone**. Then:

1. Under **1 • Who are you inviting?**, choose **Parent** (mum / dad), **Guardian** (family / carer) or **Teacher** (tuition / school) (1).
2. Under **2 • Their email**, type their email address (2). The link will only work for this email — safe to share anywhere.
3. Press **Create invite link** (3).
4. Your private link appears. Press **Copy**, or **Share on WhatsApp** (it opens your own WhatsApp — EduPeak sends nothing). EduPeak also emails the invitation for you.

The screenshot shows a mobile app interface titled "Share your journey" with a subtitle "Your dashboards & reports · view-only for your well-wishers". It features three numbered steps:

- Step 1: WHO ARE YOU INVITING?** Three buttons are shown: "Parent" (mum / dad), "Guardian" (family / carer), and "Teacher" (tuition / school). The "Parent" button is highlighted with a red box and a red circle with the number 1.
- Step 2: THEIR EMAIL** A text input field contains "lakshmi.nair@example.com". Below the field, it says "The link will only work for this email — safe to share anywhere." The input field is highlighted with a red box and a red circle with the number 2.
- Step 3: Create invite link** A blue button labeled "Create invite link" is highlighted with a red box and a red circle with the number 3. Above the button, it says "Create a private link for your parent — locked to their email."

Below the steps, there is a yellow box with the text: "We'll email this invite for you 📧 But email providers take time to trust a young platform like ours, and our message may quietly sit in their Spam folder. So don't leave it to us alone — copy the link and send it yourself on WhatsApp too. Coming from you, it always arrives, and it means more. 📧".

At the bottom, it says "Creating an invite is your conscious choice to share. EduPeak records who you invited, how and when — provable, and always visible to you here." and "WHO'S FOLLOWING YOU NOW Nobody yet. Up to 10 followers. Remove anyone anytime — access ends instantly; your consent record stays yours."

Figure 38. Share your journey: who you are inviting (1), their email (2), and Create invite link (3).

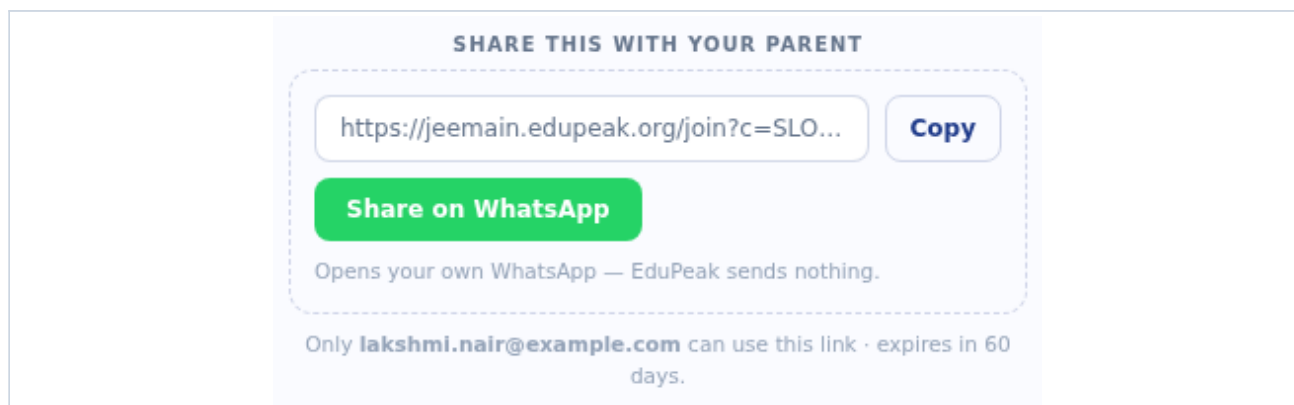

Figure 39. The ready link, with Copy and Share on WhatsApp. It shows who can use it and when it expires.

Tip Emails from a young platform sometimes land in Spam. Send the link yourself on WhatsApp too — coming from you, it always arrives, and it means more.

When they open the link and accept, they appear under **Who's following you now**. Until then the invitation shows as **Invite waiting**, with **Copy invite**, **Resend** (up to 3 resends a day) and **Cancel**. Every invitation expires after 60 days; if it runs out, simply create a new one.

See who follows you, and stop sharing

Once someone follows you, the dashboard button changes to **Manage · [number] following**. Press it to see everyone, for example **Sunita · PARENT · Following since 30 Sept 2026**.

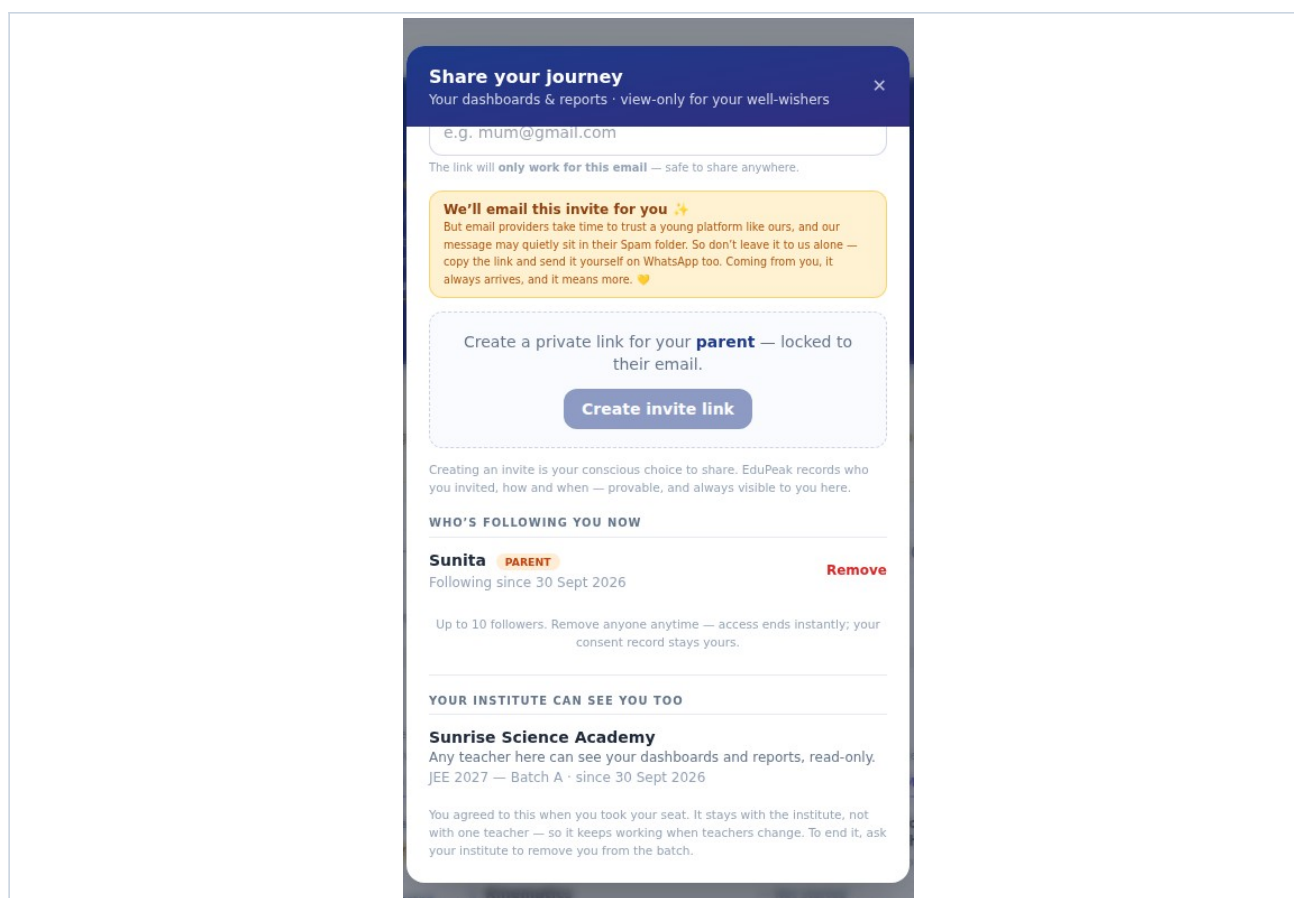

Figure 40. Aarav's sharing: his parent follows him, and his institute can see him too.

- Press **Remove** next to a name to stop sharing with that person. Access ends instantly; your consent record stays yours.
- You can have up to 10 followers.
- Creating an invite is your conscious choice. EduPeak records who you invited, how and when — always visible to you here.

Your institute

If you joined a batch (Chapter 3), the same window shows **Your institute can see you too**, with the institute, the batch and the date. Any teacher there can see your dashboards and reports, read-only. You agreed to this when you took your seat. It stays with the institute, not with one teacher. **To end it, ask your institute to remove you from the batch.** If the institute's access is paused, you will see **paused** — no teacher there can see your progress then.

Note You cannot join an institute on your own — the institute invites you. If your teacher says you should be in a batch, ask them to send (or re-send) your invitation.

9 Language and phone

Change the language

The language menu is at the top of every page, on every screen size. Choose **English**, **हिन्दी**, ગુજરાતી, मराठी, தமிழ் or తెలుగు. The menus, buttons and reports change at once — and edupeak.org follows the same choice.

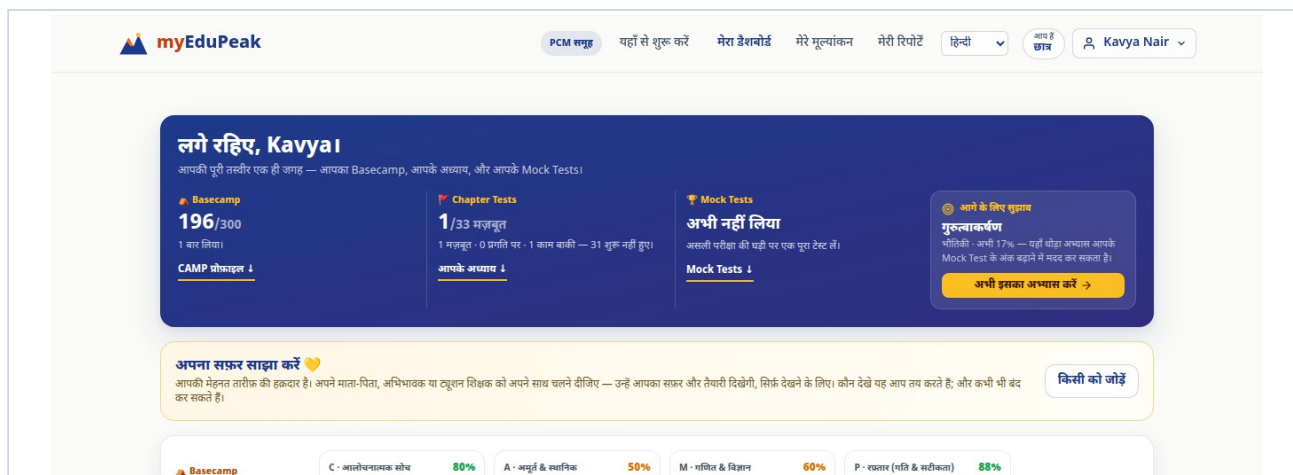

Figure 41. The same dashboard in Hindi.

There is **one language for everything** — the menus, the questions of your tests, and your reports with their worked solutions:

- In a Start dialog, choosing a language under **Take it in** switches all of myEduPeak to it.
- Change the language during a test and the questions change too — your answers and the clock stay as they are.
- Want a question's English original? **See original (English)** shows it, and stays on for the rest of that test (chapter 6).
- Anything not yet in your language is shown in English and says so: a test not yet in your language has a line under the top bar; in a report, the worked-solution panel says **This question is not in [your language] yet** and a small **in English** tag marks each English part. If a few questions of a test are being updated, the test screen tells you how many are shown in English.

On a phone

Everything in myEduPeak works on a phone. On a narrow screen, the top bar shows the logo, the language menu and the menu button (≡). Press ≡ for **Start Here**, **My Dashboard**, **My Assessments**, **My Reports**, your role, **My Profile** and **Sign out**.

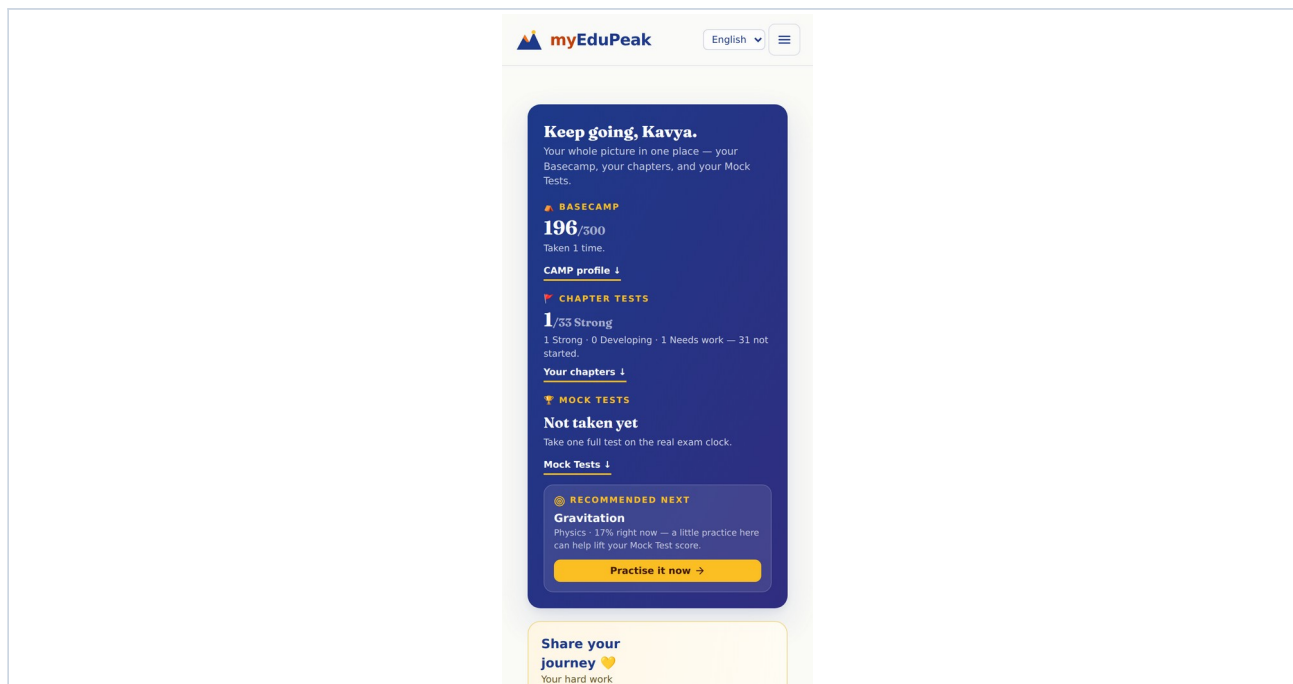

Figure 42. My Dashboard on a phone.

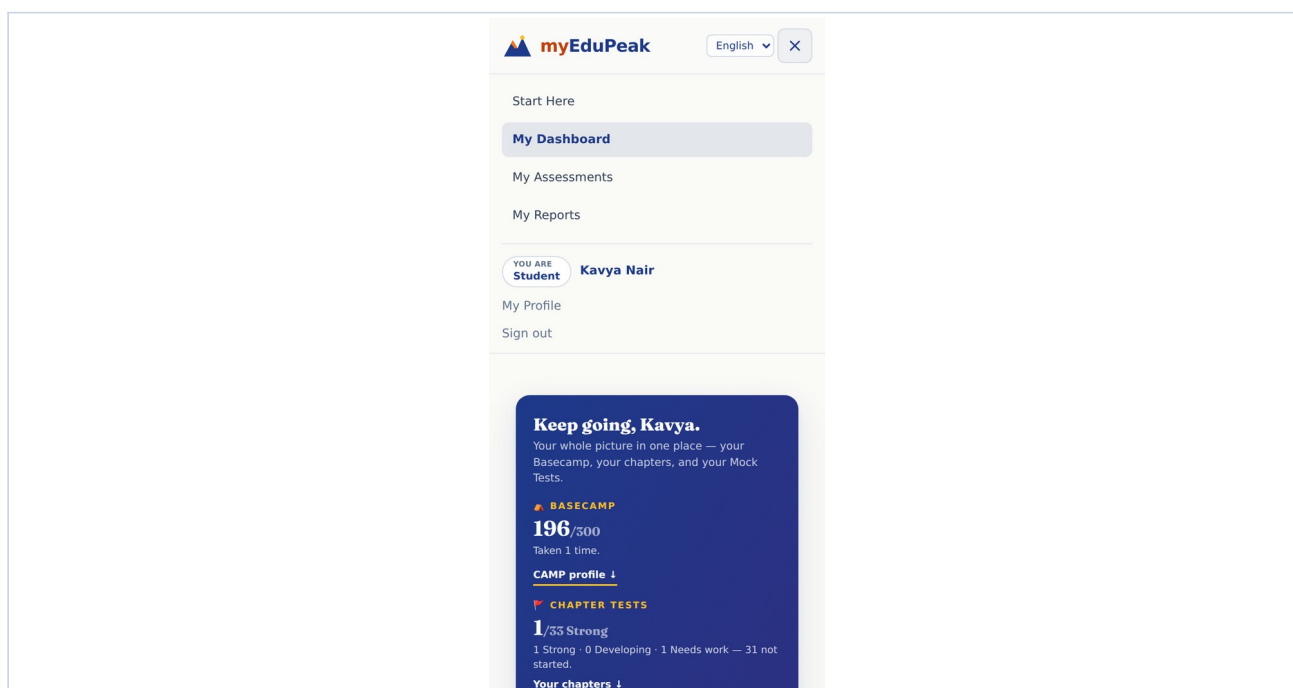

Figure 43. The phone menu, opened with ☰.

Add myEduPeak to your home screen

myEduPeak can be installed like an app. In your phone's browser, open jeemain.edupeak.org, open the browser menu and choose **Add to Home screen** (or **Install app**). An EduPeak icon appears on your home screen and opens myEduPeak full-screen. You still need an internet connection to take tests.

Tip For full-length Mock Tests, a laptop, desktop or wide tablet is more comfortable. Chapter Tests and reading your reports work well on a phone.

10 Safety, privacy and help

Why your name is on the page

EduPeak's questions and worked solutions take a great deal of care to write. To protect them, the test screen and the solutions carry a faint, repeated **watermark with your name, your email and the date**. It does not get in your way — and it is there for every user, including EduPeak's own staff.

On the test and report screens, a few things are switched off on purpose: copying and cutting text, the right-click menu, dragging images, and the keyboard shortcuts for print, save and view-source. Printing a report prints the scores and charts, never the questions and solutions.

This is not about suspecting you. It keeps the questions fresh and fair for everyone who practises after you — including you, next time.

Your privacy

- **Your results are yours.** No ranks and no comparisons with other students — reports show only your own numbers.
- **Nobody sees your progress unless you agree.** A Well-wisher sees it only after you invite them, or accept their invitation and tick the consent box. An institute sees it only after you take your seat and tick the consent box. Each consent is recorded with date and time.
- **Everyone who follows you is read-only.** They can't start or change anything.
- **You can stop sharing** with a Well-wisher at any time (Remove). For an institute, ask them to remove you from the batch.
- EduPeak does not use your data for advertising and does not sell it. You can ask to see, correct or delete your data by writing to **hello@edupeak.org** — see the **Privacy Policy** on edupeak.org.

Getting help

- **Start Here** in myEduPeak — your map of the app.
- **FAQs** on edupeak.org — answers to common questions, in six languages.
- **Email: hello@edupeak.org** — EduPeak aims to reply within two business days. The **Contact** page on edupeak.org has the details.
- For anything about your batch or your institute's invitation, ask your institute first — they manage batches and invitations.

Tip When you write to EduPeak, say which test or report you mean (its name and the date) and what you saw on the screen. Never send your password — EduPeak will never ask for it.

11 Questions students ask

Is EduPeak free?

Creating an account is free. During the launch period everything is free for everyone — the date is on your Start Here page. After that, every part keeps free tests, each with the complete report; Prime (the yearly membership) opens everything else and lets you take a test again. Every test shows Free or Part of Prime before you start.

What is the access code, and where do I get one?

It opens Prime tests. During the free period it is already filled in for you. Later, your school or coaching may give you a code — type it in the Access code box of the Start dialog.

Which test should I take first?

Basecamp — once, before your two years of preparation begin. Then take Chapter Tests as you finish each chapter, and Mock Tests in your last months.

Can I take a Chapter Test again?

Yes. Press Practise or Retake on the chapter. You get new questions each time. Your chapter colour comes from your last 3 tests of that chapter.

Can I take the same Mock paper twice?

No. Each mock paper allows one attempt. There are many other papers to choose from.

My internet went off during a test. Did I lose my answers?

No. Saved answers are kept, and EduPeak keeps retrying until the indicator says Saved. If you closed the tab, open myEduPeak and press Resume — the clock keeps running while you are away.

What happens when the timer reaches zero?

The test submits itself, and every saved answer is scored. In Basecamp, when a section's clock reaches zero you move on to the next section.

Why can't I go back to a Basecamp section?

Each Basecamp section has its own clock, like separate papers. Once you move to the next section, the one before is closed.

A chapter says NOT READY YET. What should I do?

Nothing. There are not enough questions yet for a fair test. It opens there when it is ready.

Why does my chapter show Strong when the test said Developing?

They measure different things. The test's band is your marks in that test (wrong answers cost a mark). The chapter colour is right answers out of all questions in your last 3 tests of the chapter.

Can my parents see my reports?

Only if you invite them (Share your journey → Add someone) or accept their invitation. They see your dashboards and reports read-only, and you can remove them anytime.

My institute's invitation link says it isn't for this account.

The invitation is locked to the email it was sent to. Sign out and sign in with that email — or ask your institute to send it to the email you use on EduPeak.

The invitation email never arrived.

Check your Spam folder. Ask the person who invited you to copy the link and send it on WhatsApp — they can also press Resend.

12 Glossary

Term	What it means
myEduPeak	The EduPeak app at jeemain.edupeak.org , where you take tests and read reports.
edupeak.org	EduPeak's main website: information, sign-up, sign-in, password reset and your profile.
User ID	Your EduPeak name (like aarav.sharma). You can sign in with it or with your email.
Group (PCM / PCB)	Your subject group. PCM: Mathematics, Physics, Chemistry. PCB: Physics, Chemistry, Botany, Zoology.
Basecamp	A 100-minute test of your Class 9–10 basics in 6 timed sections. Take it first.
CAMP profile	Your Basecamp result in four dimensions: C Cognition, A Aptitude, M Mastery (Maths, Physics, Chemistry), P Pace (speed & accuracy).
Chapter Test	A fresh test of one Class 11 or 12 chapter: up to 25 questions, 60 minutes.
Mock Test	A full paper on the real exam clock, with that exam's own pattern and marking.
Strong / Developing / Needs work	The bands: 70% and above / 45% to 69% / below 45%.
Key concept	A main idea inside a chapter. Chapter Test reports and your dashboard show a band per key concept.
Guide time	The time a question should take, from its difficulty and subject (+30 s for a numerical). Used to put questions into the "How you answered" groups.
Worked solution	The step-by-step solution to a question, shown in the report.
Mark for review	A flag on a question during a test, so you can come back to it. A marked answer is still scored.
Question Palette	The numbered buttons in a test that show each question's state and let you jump to it.
Well-wisher	A parent, guardian or tuition teacher who follows your progress, read-only, because you agreed.
Batch	A class group at your institute, such as JEE 2027 — Batch A.
Guide	A person from an EduPeak partner organisation who introduces EduPeak to schools and families.
Prime	EduPeak's yearly membership. It opens everything beyond the free tests and lets you take a test again.
Access code	A code (from EduPeak during the free period, or from your school or coaching) that opens Prime tests.
Hat	A role you hold on EduPeak, shown in the YOU ARE badge — for you, Student.
